Basket Value

The Basket Value at time t is calculated as follows:

$$\text{Basket Value}_t = \text{Denomination} \times \sum_{i=1}^n w_i \times \frac{\text{UnderlyingComponent}_{i,t}}{\text{UnderlyingComponent}_{i,IF}}$$

where

w_i = Weight of the Underlying Component i

$\text{UnderlyingComponent}_{i,t}$ = Price of the Underlying Component i at time t

$\text{UnderlyingComponent}_{i,IF}$ = Price of the Underlying Component i at Initial Fixing Date

Participation Rate

100.00%** on performance above the Bonus Level

Redemption Method

- If none of the Underlying Components' Final Fixings is at or below the Knock-out Level, the Bonus Payment will be paid. If the Basket Value on the Final Fixing Date is higher than the Bonus Payment, the difference between the two values multiplied by the Participation Rate will additionally be paid, according to the following formula:

$$\text{Denomination} \times (\text{BonusLevel} + \text{ParticipationRate} \times \max(0, \text{BasketLevel}_{FF} / \text{BasketLevel}_{IF} - \text{BonusLevel}))$$

where:

BasketLevel_{IF} = Basket Value on Initial Fixing Date

BasketLevel_{FF} = Basket Value on Final Fixing Date

BonusLevel = 112.00%**

ParticipationRate = 100.00%**

- If at least one of the Underlying Components' Final Fixings is at or below the Knock-out Level, the Investor participates in the Underlying Component with the worst performance. A physical delivery of this Underlying Component will be paid. The number of Underlying Components per notional amount is determined according to Ratio (fractions will be paid in cash, no cumulation).

If none of the Underlying Components' Final Fixings is at or below the Knock-out Level on the Final Fixing Date, the performance of the Certificate will be at least 12.00%** and above that level will be analogous to the performance of the Underlying, multiplied by the Participation Rate. If at least one of the Underlying Components' Final Fixing Levels is at or below the Knock-out Level, the Performance of the Certificate at redemption will be analogous to that of the Underlying Component with the worst performance. Therefore, the investor may suffer a partial or total loss.

In this table, the assumption was made that Nestlé rs was the worst performing Underlying Component and also that this performance corresponds to the performance of the basket. The selection is purely exemplary.

The table above is valid at maturity only and is by no means meant as a price indication for this structured product throughout its lifetime. The price of this structured product depends on additional risk factors between the Initial Fixing Date and the Final Fixing Date. The price quoted on the secondary market can therefore deviate substantially from the above table.

3. Material Risks for Investors

Issuer Risk

Obligations under this structured product constitute direct, unconditional and unsecured obligations of the Issuer and rank pari passu with other direct, unconditional and unsecured obligations of the Issuer. The value of the structured product not only depends on the performance of the Underlying and other developments in the financial markets, but also on the solvency of the Issuer, which may change during the term of this structured product.

Specific Product Risks

Structured products are complex investment instruments that entail considerable risks and are therefore only intended for experienced investors who understand and are able to bear the associated risks.

The loss potential of this certificate corresponds exactly to that of the Underlying Component with the worst performance if the Knock-out Level has been touched. The value of this Underlying Component may be significantly lower at redemption than on the Initial Fixing Date. The certificate is denominated in CHF. The Investor bears all the exchange rate risks arising in connection with the structured product between the product currency, the currency of the Underlying Components, and against its reference currency.

4. Additional Terms

Specific modification rules for certain types of Underlyings stated in the base prospectus shall prevail. If the Issuer determines, for whatever reason, that an adequate modification is not possible, the Issuer has the right to redeem the products early.
