Redemption Method**Early Redemption:**

Early Redemption is dependent on the Underlying's price level on the respective Observation Date.

- If all Underlyings close at or above the Call Level on the Observation Date, the product will be redeemed early at 100% of the Denomination.
- If one or more Underlyings closes below the Call Level on the Observation Date, the product continues.

Redemption at Maturity:

If all Underlyings close at or above the Cap Level on the Final Fixing Date, cash redemption will be 100% of the Denomination. If the closing price of one or more Underlyings trades below the Cap Level on the Final Fixing Date, the investor will receive a physical delivery of an amount of Underlyings according to the Redemption Method as defined in Ratio per Denomination CHF 1'000 of the worst performing Underlying between the Initial Fixing Date and the Final Fixing Date. In this case, the applicable Ratio will not be determined until the Final Fixing Date (fractions will be paid in cash, no cumulation).

The payment of the Coupons occurs on the respective Coupon Payment Date(s) independently of the Underlyings' performance.

The product is currency hedged. In the case of physical delivery, exchange rate changes are offset in determining the Ratio (number of Underlyings to be delivered), so that they have no impact on the performance of the product (Quantity Adjusted Option, abbreviated as "Quanto"). The equivalent value of the redemption (i.e. the value of the Underlyings to be delivered together with the cash settlement of the fractions) in the product currency thus only reflects the performance of the Underlying to be delivered. Gains or losses due to exchange rate changes are not passed on.

Listing

Application to list on the SIX Swiss Exchange will be filed, planned first trading day will be 5 July 2024.

Key Elements of the product	ZKB Autocallable RC Defensive on worst of is an investment product, which can be redeemed early quarterly - depending on the performance of the underlyings. The product pays attractive quarterly Coupons during its lifetime An above-average return will be reached if the Underlying trades sideways or slightly higher than at Initial Fixing Date. If one or more of the Underlyings trade below the Cap Level at Final Fixing Date, the investor receives a physical delivery of a predefined number of the worst performing Underlying (between Initial Fixing Date and Final Fixing Date) according to Redemption Method. Because of the Cap Level below 100%, the cost price of the Underlying is lower in case of physical delivery. As a result, the loss in case of physical delivery of the Underlying is lower than in case of a direct investment. If all Underlyings trade at or above the Cap Level at Final Fixing Date, Redemption will be 100 % of the Denomination in cash. During the lifetime, ZKB Autocallable RC Defensive on worst of are traded flat accrued interest, i.e. accrued interest is included in the trading price.
Taxes	The product is considered as transparent Non-IUP (Intérêt Unique Prédominant). The Coupon of 1.2500% (5.0000% p.a.)** is divided in an option premium payment of 1.0083% (4.0331% p.a.)** and an interest payment of 0.2417% (0.9669% p.a.)**. The option premium part qualifies as capital gain and is not subject to Swiss income tax for private investors with Swiss tax domicile. The interest part is subject to Swiss income tax at payment time. The product is not subject to Swiss withholding tax. The Federal securities transfer stamp tax is levied on secondary market transactions of this product. In the case of physical delivery of the Underlying at maturity the Federal securities transfer stamp tax will be levied on the basis of the Cap Level. This product may be subject to additional withholding taxes or duties, such as related to FATCA, Sect. 871(m) U.S. Tax Code or foreign financial transaction taxes. The possibility of an early redemption has been neglected in the above table.

If at maturity all Underlyings trade higher or equal to the Cap Level, the performance of the structured product will be at the over the lifetime paid out Coupon (according to Coupon Payment Date(s)) of 7.50%**. If at maturity one or more Underlyings trade below the Cap Level, the investor will receive physical delivery of the Underlying with the worst relative performance (between Initial Fixing Date and Final Fixing Date). Therefore, the investor may suffer a partial or total loss. The cost price of the delivered Underlyings is at 79.70% of the Initial Fixing Value. As a result, the negative performance of the structured product is lower than the negative performance of the worst performing Underlying.

The table above is valid at maturity only and is by no means meant as a price indication for this structured product throughout its lifetime. The price of this structured product depends on additional risk factors between the Initial Fixing Date and the Final Fixing Date. The price quoted on the secondary market can therefore deviate substantially from the above table. It was assumed, that ABB rs was the worst performing Underlying. This selection is just a representative example of the possible alternatives.

3. Material Risks for Investors

Issuer Risk

Obligations under this structured product constitute direct, unconditional and unsecured obligations of the Issuer and rank pari passu with other direct, unconditional and unsecured obligations of the Issuer. The value of the structured product not only depends on the performance of the Underlying and other developments in the financial markets, but also on the solvency of the Issuer, which may change during the term of this structured product.

Specific Product Risks

Structured products are complex financial instruments, which entail considerable risks and, accordingly, are only suitable for investors who have the requisite knowledge and experience and understand thoroughly the risks connected with an investment in these structured products and are capable of bearing the economic risks. The loss potential of an investment in this structured product is, in case of delivery of an Underlying share at maturity, limited to the difference between the purchase price of the structured product and the value of the Underlying shares at maturity. The value of the worst performing Underlying share can then be lower than the Cap Level. The product is denominated in CHF. The investor bears the risk between the CHF and his reference currency.

4. Additional Terms

Modifications

If an extraordinary event as described in the base prospectus occurs in relation to the Underlying/a component of the Underlying or if any other extraordinary event occurs, which makes it impossible or particularly cumbersome for the Issuer, to fulfill its obligations under the products or to calculate the value of the products, the Issuer shall at its own discretion take all the necessary actions and, if necessary may modify the terms and conditions of these products at its own discretion in such way, that the economic value of the products after occurrence of the extraordinary event corresponds, to the extent possible, to the economic value of the products prior to the occurrence of the extraordinary event. Specific modification rules for certain types of Underlyings stated in the base prospectus shall prevail. If the Issuer determines, for whatever reason, that an adequate modification is not possible, the Issuer has the right to redeem the products early.

Change of Obligor

The Issuer is entitled at all times and without the consent of the investors to assign in whole (but not in part) the rights and claims under individual structured products or all of them to a Swiss or foreign subsidiary, branch or holding company of the Zürcher Kantonalbank (the "New Issuer") to the extent that (i) the New Issuer assumes all of the obligations arising out of the assigned structured products which the previous Issuer owed in respect of these structured products, (ii) the Zürcher Kantonalbank enters into a keep-well agreement with the New Issuer with terms equivalent to the one between the Zürcher Kantonalbank and Zürcher Kantonalbank Finance (Guernsey) Limited, (iii) the New Issuer has received from the supervisory authorities of the country in which it is domiciled all necessary approvals for the issue of structured products and the assumption of the obligations under the assigned structured products.

Market Disruptions

Compare specific provisions in the base prospectus.

Prudential Supervision

As a bank within the meaning of the Swiss Federal Act on Banks and Savings Banks (BankG; SR 952.0) and a securities firm within the meaning of the Swiss Federal Act on Financial Institutions (FinlAG; SR 954.1), Zürcher Kantonalbank is subject to the prudential supervision of FINMA, Laupenstrasse 27, CH-3003 Bern, <https://www.finma.ch>.

Recording of Telephone Conversations

Investors are reminded that telephone conversations with trading or sales units of Zürcher Kantonalbank are recorded. Investors, engaging in telephone conversations with these units provide their tacit consent to the recording of their conversations.

Further Information

This document constitutes neither an offer nor a recommendation or invitation to purchase financial instruments and can't replace the individual investor's own judgement. The information contained in this document does not constitute investment advice but is intended solely as a product description. An investment decision should in any case be made on the basis of these Final Terms and the base prospectus. Particularly, before entering into a transaction, the investor should, if necessary with the assistance of an advisor, examine the conditions for investment in the product in consideration of his personal situation with regard to legal, regulatory, tax and other consequences. Only an investor who is aware of the risks of the transaction and has the financial capacity to bear any losses should enter into such transactions.

Material Changes

Since the end of the last financial year or the date of the interim financial statements, there have been no material changes in the assets, financial or revenue position of the Issuer and Zürcher Kantonalbank.

Responsibility for the indicative Final Terms

Zürcher Kantonalbank, Zurich, and Zürcher Kantonalbank Finance (Guernsey) Limited, Guernsey, assume responsibility for the content of these indicative Final Terms and hereby declare that, to their knowledge, the information contained in these indicative Final Terms is correct and no material circumstances have been omitted.
