Investment Profile

The composition of the Underlying of this structured product is managed **dynamically** and **discretionary** over the course of its term.

The selection comprises the investment manager's preferred Swiss equities, which are represented in the Swiss Performance Index®. The investment decision is based on a proprietary model developed by the investment manager, which combines fundamental and technical analysis. The equities are generally included in the portfolio on an equal-weight basis, although liquidity restrictions on small-cap stocks may result in adjustments to weightings on a case-by-case basis. The investment manager may decide to replicate only part of the list of favourite equities published in the Finanz und Wirtschaft newspaper, with each replication occurring with a delay.

Further information about the investment strategy – if available – can be obtained free of charge from Zürcher Kantonalbank, Bahnhofstrasse 9, 8001 Zürich, department VRIS or by way of e-Mail address documentation@zkb.ch.

Title Universe	The Title Universe consists of Shares included in the Swiss Performance Index® (SPI). The current composition of the Underlying can be requested free of charge by email at documentation@zkb.ch or by telephone on 044 292 60 65.
Rebalancing	The Investment Manager rebalances the portfolio composition based on its qualified evaluation of the market. The index is usually rebalanced every quarter. The Investment Manager considers only Underlying Components which provide sufficient liquidity and tradability. The Rebalancing is based on net prices of the Underlying Components (average of the net prices (see below) of the Underlying Components converted into the basket currency by the Issuer). The rebalancing period may be prolonged by the Issuer due to limited tradability.
