

Registrierungsformular

vom

20. Juni 2025

für

Forderungspapiere (ohne Derivate) und für Derivate

der

Zürcher Kantonalbank

sowie der

Zürcher Kantonalbank Finance (Guernsey) Limited

Dieses Dokument wurde zum Zweck der Offenlegung von Informationen in Bezug auf die Zürcher Kantonalbank (nachfolgend auch als "ZKB" bezeichnet) sowie die Zürcher Kantonalbank Finance (Guernsey) Limited (nachfolgend auch als "ZKB Guernsey" bezeichnet) (zusammen die "Emittentinnen" und jeweils eine "Emittentin") erstellt und stellt ein Registrierungsformular (in der jeweiligen Fassung, einschliesslich mit Nachträgen, das "Registrierungsformular") im Sinne von Art. 44 Abs. 2 lit. a des Bundesgesetzes über die Finanzdienstleistungen vom 15. Juni 2018 in der jeweils geltenden Fassung ("FIDLEG") in Verbindung mit Art. 55 Abs. 2 sowie Anhang 2 und 3 der Verordnung über die Finanzdienstleistungen vom 6. November 2019 in der jeweils geltenden Fassung ("FIDLEV") dar.

Das Registrierungsformular wurde am 20. Juni 2025 von der SIX Exchange Regulation AG als Prüfstelle im Sinne von Art. 52 FIDLEG genehmigt. Das Registrierungsformular dient als Grundlage für (a) den Basisprospekt der ZKB und der ZKB Guernsey für strukturierte Produkte, bestehend aus der betreffenden Zusammenfassung und der betreffenden Effektenbeschreibung in welchen auf dieses Registrierungsformular Bezug genommen wird sowie diesem Registrierungsformular (der "Basisprospekt für strukturierte Produkte") und Prospekte, bestehend aus dem Basisprospekt für strukturierte Produkte und den betreffenden endgültigen Bedingungen i.S.d. Art. 45 Abs. 3 FIDLEG und Art. 56 FIDLEV, für Emissionen darunter, (b) den Basisprospekt der ZKB für Anleihen und Geldmarktpapiere, bestehend aus der betreffenden Zusammenfassung und der betreffenden Effektenbeschreibung in welchen auf dieses

Registrierungsformular Bezug genommen wird sowie diesem Registrierungsformular (der "Basisprospekt für Anleihen und Geldmarktpapiere"), und Prospekte, bestehend aus dem Basisprospekt für Anleihen und Geldmarktpapiere und den betreffenden endgültigen Bedingungen i.S.d. Art. 45 Abs. 3 FIDLEG und Art. 56 FIDLEV, für Emissionen darunter, sowie (c) weitere mehrteilige Prospekte i.S.d. Art. 44 FIDLEG (einschliesslich mehrteilige Basisprospekte) sowie andere Prospekte für die Ausgabe durch die Zürcher Kantonalbank oder die Zürcher Kantonalbank Finance (Guernsey) Limited von Forderungspapieren (ohne Derivate) oder von Derivaten in welchen auf dieses Registrierungsformular Bezug genommen wird.

Dieses Registrierungsformular kann von Zeit zu Zeit nachgetragen werden. In einem solchen Nachtrag enthaltene Erklärungen (einschliesslich der darin durch Verweis aufgenommenen Informationen) gelten, soweit anwendbar (ob ausdrücklich, stillschweigend oder anderweitig), als Änderung oder Ersatz von Erklärungen, die in diesem Registrierungsformular (einschliesslich der darin durch Verweis aufgenommenen Informationen) enthalten sind. Jede auf diese Weise geänderte oder ersetzte Erklärung stellt keinen Teil dieses Registrierungsformulars mehr dar, sondern es gilt die geänderte oder ersetzte Erklärung oder Information.

Dieses Registrierungsformular ist auf der frei zugänglichen Internetseite der Zürcher Kantonalbank (https://zkb-fi-nance.mdgms.com/products/stp/service/emission/index.html) (oder eine Nachfolge- oder Ersatzwebsite) abrufbar.

(gelten als integrierter Bestandteil dieses Registrierungsformulars)

ANLAGE 1A (Jahresabschluss 2023 der Zürcher Kantonalbank Finance (Guernsey) Limited)

ANLAGE 1B (Jahresabschluss 2024 der Zürcher Kantonalbank Finance (Guernsey) Limited)

WESENTLICHE RISIKEN IN BEZUG AUF DIE EMITTENTINNEN

In den folgenden Abschnitten werden von den Emittentinnen jeweils als wesentlich erachtete Risiken beschrieben, die sich ungünstig auf das Geschäftsergebnis oder die finanzielle Lage der Emittentinnen auswirken und gegebenenfalls zur Folge haben könnten, dass die Emittentinnen ihre Verpflichtungen aus Forderungspapieren (ohne Derivate) oder Derivaten (jeweils "Instrumente") nicht oder nur teilweise erfüllen können.

Manifestiert sich eines oder verschiedene der nachstehenden wesentlichen Risiken, können Anleger in Derivate oder andere Forderungspapiere ihr gesamtes in solche Instrumente angelegtes Kapital oder einen Teil davon sowie eine etwaige darauf erwartete Rendite verlieren.

Die nachstehend beschriebenen wesentlichen Risiken sind in jedem Fall zusammen mit den übrigen in den betreffenden Effektenbeschreibungen und endgültigen Bedingungen sowie anderen Prospekten beschriebenen wesentlichen Risiken und weiteren Angaben sowie dem übrigen Inhalt des vorliegenden Registrierungsformulars zu lesen.

A. Zürcher Kantonalbank

I. Liquiditätsrisiko

Die Liquidität, sowie der zeitgerechte Zugang zu finanziellen Mitteln, ist für die ZKB von entscheidender Bedeutung. Die Liquidität der ZKB könnte beeinträchtigt werden, falls diese nachhaltig nicht in der Lage ist, Zugang zu den Kapitalmärkten zu erhalten oder ihre Vermögenswerte zu verkaufen, wenn ihre Liquiditätskosten sehr stark steigen oder wenn Kunden innert kurzer Zeit in wesentlichem Umfang ihre Einlagen zurückziehen, ohne dass im gleichen Umfang Forderungen der ZKB, zum Beispiel aus Hypothekar- oder anderen Krediten, befriedigt werden (bank run). Als Folge eines Liquiditätsproblems könnte die ZKB Probleme haben, den Zahlungsverpflichtungen unter den betreffenden Instrumenten nachzukommen und könnte die Eidgenössische Finanzmarktaufsicht FINMA ("FINMA") Massnahmen anordnen. Dadurch könnten die Anleger in Instrumenten Verluste erleiden.

II. Konkursrisiko

Die ZKB ist insbesondere dem Risiko einer ungünstigen, wirtschaftlichen Entwicklung in der Schweiz und der Region Zürich ausgesetzt.

Diese Entwicklungen könnten sich auf die Kreditfähigkeit der Kunden und damit das Kreditrisiko der ZKB auswirken. Das Kreditrisiko ist ein integraler Bestandteil vieler Geschäftstätigkeiten der ZKB, unter anderem im Kredit- und Derivatgeschäft. Der Ausfall von Gegenparteien bzw. Schuldnern der ZKB in grösserem Ausmass, unter Umständen verbunden mit Rückgängen bei den Werten von Sicherheiten wie z.B. Wertpapieren oder Schuldbriefen, könnte zu erheblichen Verlusten führen.

Die ZKB ist zudem erheblichen rechtlichen Risiken ausgesetzt. Sie kann nachteiligen Gerichts- und Behördenentscheidungen ausgesetzt sein, die sich in einem erheblichen Masse negativ auf die öffentliche Wahrnehmung und ihren Ruf auswirken, zu aufsichtsrechtlichen Massnahmen seitens der Aufsichtsbehörden oder zu Anordnungen von Gerichten führen könnten, die zu einer Überschuldung oder ernsthaften Liquiditätsproblemen führen.

Als Folge substantieller Verluste der ZKB könnte die FINMA Massnahmen anordnen, einschliesslich solcher im Rahmen eines von ihr eröffneten Sanierungsverfahrens, oder die Konkursliquidation anordnen, und könnten die Anleger in Instrumenten in deren Folge Verluste erleiden.

B. Zürcher Kantonalbank Finance (Guernsey) Limited

ZKB Guernsey ist eine Sonderzweckgesellschaft der ZKB. Sie weist nur ein beschränktes eigenes Kapital auf. ZKB Guernsey ist daher von der ZKB weitgehend abhängig und die für die ZKB Guernsey relevanten Risiken

entsprechen aufgrund des zwischen der ZKB Guernsey und der ZKB abgeschlossenen Keep-Well Agreements im Wesentlichen denjenigen der ZKB.

ZUKUNFTSGERICHTETE AUSSAGEN

Dieses Registrierungsformular sowie die mittels Verweis in dieses einbezogene Dokumente (vgl. den Abschnitt "Einbezug mittels Verweis" nachstehend) enthalten zukunftsgerichtete Aussagen bzw. es sind zukunftsgerichtete Aussagen durch Verweis einbezogen. Begriffe wie "glauben", "erwarten", "planen", "schätzen", "vorhersehen", "beabsichtigen", "anstreben", "annehmen", "kann", "könnte", "wird" und ähnliche Begriffe sollen solche zukunftsbezogenen Aussagen kennzeichnen, sind aber nicht das einzige Mittel zur Kennzeichnung derselben. Die in diesem Registrierungsformular enthaltenen oder per Verweis einbezogenen zukunftsbezogenen Aussagen basieren auf den Annahmen und Erwartungen, welche die ZKB zum heutigen Zeitpunkt für realistisch hält, die aber unsicher sind und sich als falsch herausstellen können. Für eine Beschreibung der für Anleger in Forderungspapiere (ohne Derivate) oder Derivate wesentlichen Risiken im Zusammenhang mit den Emittentinnen wird auf den vorstehenden Abschnitt "Wesentliche Risiken in Bezug auf die Emittentinnen" verwiesen.

Sollte eines oder mehrere dieser wesentlichen Risiken eintreten oder sollten sich die der Beschreibung der wesentlichen Risiken zugrundeliegenden Annahmen als falsch erweisen, können die effektiven Folgen und Resultate erheblich von der heutigen Einschätzung abweichen. Potenzielle Anleger sollten sich daher in keiner Weise auf zukunftsbezogene Aussagen verlassen. Sofern nicht durch das FIDLEG oder andere anwendbare wertpapierrechtliche Gesetze und Vorschriften vorgeschrieben, übernehmen die Emittentinnen keine Verpflichtung, zukunftsbezogene Aussagen oder die Beschreibung der wesentlichen Risiken zu aktualisieren oder zu ergänzen, selbst wenn diese aufgrund neuer Informationen, zukünftiger Ereignisse oder anderen Umstände unrichtig oder irreführend werden.

ALLGEMEINE ANGABEN ÜBER DIE ZÜRCHER KANTONALBANK UND DIE ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

A. Zürcher Kantonalbank

Firma, Sitz und Ort der Hauptverwaltung

Die ZKB hat ihren Sitz und ihre Hauptverwaltung an der Bahnhofstrasse 9, 8001 Zürich.

II. Gründung, Dauer

Die Gründung der ZKB im Jahr 1870 beruht auf dem Bankgesetz von 1869. Die Dauer der ZKB ist nicht beschränkt.

III. Rechtsordnung, Rechtsform

Die ZKB ist eine selbständige öffentlich-rechtliche Anstalt des Kantons Zürich und unterliegt der Oberaufsicht des Zürcher Kantonsrates. Das Bestehen der ZKB basiert auf dem Gesetz über die ZKB vom 28. September 1997 (**"Kantonalbankgesetz"**), in Kraft getreten am 1. Januar 1998.

Als Bank untersteht die ZKB dem Bundesgesetz über die Banken und Sparkassen vom 8. November 1934, und damit der bankengesetzlichen Aufsicht der FINMA.

Der Kanton Zürich haftet für alle Verbindlichkeiten der ZKB, soweit ihre eigenen Mittel nicht ausreichen, mit Ausnahme von nachrangigen Verbindlichkeiten (§ 6 Abs. 1 und 2 Kantonalbankgesetz).

IV. **Zweck**

Gemäss gesetzlichem Zweckartikel trägt die ZKB zur Lösung volkswirtschaftlicher, sozialer und ökologischer Aufgaben im Kanton Zürich bei und unterstützt eine nachhaltige Entwicklung. Sie verfolgt eine auf Kontinuität

ausgerichtete Geschäftspolitik und befriedigt Anlage- und Finanzierungsbedürfnisse. Dabei berücksichtigt sie insbesondere die Anliegen der kleinen und mittleren Unternehmen, der Arbeitnehmerinnen und Arbeitnehmer, der Landwirtschaft und der öffentlich-rechtlichen Körperschaften. Darüber hinaus fördert die ZKB das Wohneigentum sowie den preisgünstigen Wohnungsbau sowie die Erreichung der Treibhausgasneutralität (§ 2 Kantonalbankgesetz).

V. Register

Die ZKB ist seit dem 24. April 1883 als öffentlich-rechtliche Anstalt im Handelsregister des Kantons Zürich eingetragen. Die Registernummer der ZKB lautet CHE-108.954.607.

VI. Rating

Per Datum dieses Registrierungsformulars lauten die von den Ratingagenturen erteilten Ratings der ZKB wie folgt:

Ratingagentur	Datum	langfristig
Standard&Poor's	28. November 2024	AAA
Moody's	18. September 2024	Aaa
FitchRatings	24. Februar 2025	AAA

B. Zürcher Kantonalbank Finance (Guernsey) Limited

Firma, Sitz und Ort der Hauptverwaltung

Die ZKB Guernsey hat ihren Sitz und ihre Hauptverwaltung in Harbour House, South Esplanade, St. Peter Port, Guernsey GY1 1AP, Channel Islands.

II. Gründung, Dauer

Die ZKB Guernsey wurde am 17. November 2000 gegründet. Die Dauer der ZKB Guernsey ist nicht beschränkt.

III. Rechtsordnung, Rechtsform

Die ZKB Guernsey ist eine als "limited liability company" (Gesellschaft mit beschränkter Haftung) ausgestaltete sogenannte "Non-Cellular Company Limited by Shares" nach dem Recht von Guernsey. Das vollständig einbezahlte Aktienkapital beträgt eine Million Schweizer Franken (CHF 1'000'000).

Die aktualisierte Gründungsurkunde (Memorandum of Incorporation) und die aktualisierten Statuten (Articles of Incorporation) (**"Statuten"**) sind gültig seit 14. März 2012 resp. 19. Oktober 2016. Die ursprünglichen Gründungsdokumente datieren vom 17. November 2000.

Die ZKB ist aufgrund eines Keep-Well Agreements verpflichtet, die ZKB Guernsey finanziell stets so auszustatten, dass diese jederzeit die Ansprüche der Gläubiger termingerecht zu befriedigen vermag.

Ⅳ. Zweck

Gemäss dem Memorandum of Incorporation der ZKB Guernsey ist der Zweck der Gesellschaft unlimitiert (Art. 3 des Memorandum of Incorporation).

V. Register

Die ZKB Guernsey ist seit dem 17. November 2000 als Non Cellular Company im Guernsey Registry eingetragen. Die Registernummer der ZKB Guernsey lautet 37610.

C. Konzernstruktur

Die ZKB ist die Obergesellschaft verschiedener national und international ausgerichteter Tochtergesellschaften. Die Konzernstruktur gestaltet sich per 31. Dezember 2024 gemäss der nachfolgenden Darstellung.

Zürcher Kantonalbank (Stammhaus)

Swisscanto Holding AG Zürcher Kantonalbank Finance (Guernsey) Ltd.

Zürcher Kantonalbank Österreich AG

ZKB Securities (UK) Ltd.

Complementa AG

Swisscanto Fondsleitung AG

Swisscanto Asset Management International SA

Representative Offices: São Paulo, Beijing, Mumbai, Singapur Werden als Bestandteil des Stammhauses geführt.

Die Swisscanto Holding AG und ihre Tochtergesellschaften Swisscanto Fondsleitung AG, Swisscanto Vorsorge AG (in Liquidation) und Swisscanto Asset Management International SA, Luxemburg (zusammen "Swisscanto"), gehören zu 100 Prozent direkt bzw. im Fall der Tochtergesellschaften indirekt der ZKB. Als ausgewiesene Spezialistin entwickelt Swisscanto qualitativ hochstehende Anlage- und Vorsorgelösungen für private Anleger, Firmen und Institutionen. Im Jahr 2024 beschloss der Bankrat die Liquidation der Swisscanto Vorsorge AG.

Die Zürcher Kantonalbank Österreich AG gehörte seit 1. Februar 2010 zu 100 Prozent der ZKB und erbrachte Anlage- und Vermögensverwaltungsdienstleistungen für private und institutionelle Anleger. Neben dem Hauptsitz in Salzburg unterhält sie eine Niederlassung in Wien und beschäftigt rund 116 Mitarbeitende. Per 9.

Januar 2025 hat die Liechtensteinische Landesbank AG (LLB) die Zürcher Kantonalbank Österreich AG von der ZKB übernommen.

Die ZKB Guernsey ist eine 100-prozentige Tochtergesellschaft der ZKB. Sie emittiert Strukturierte Anlageprodukte.

Am 26. Juli 2024 hat die ZKB die Complementa AG, ein auf Investment_Reporting-Services spezialisiertes Unternehmen mit Sitz in St. Gallen, erworben, um ihre Kompetenzen im Bereich Custody Services weiter auszubauen. Die Complementa AG und indirekt auch deren Tochtergesellschaft Complementa GmbH in München, werden zu 100% von der ZKB gehalten.

Die ZKB Securities (UK) Ltd gehört zu 100 Prozent der ZKB und agiert als Broker für professionelle Kunden in Grossbritannien und ermöglicht ihnen damit Investitionen in Schweizer Aktien (Equity Brokerage) einschliesslich Investitionen in aktienähnliche Fonds zu tätigen. Zudem wird der Zugang zu Aktienresearch-Publikationen (Sell-Side Research) angeboten.

Schliesslich ist auch das Representative Office in São Paulo, die Zürcher Kantonalbank Representações Ltda., eine 100-prozentige Tochtergesellschaft der ZKB. Die übrigen Representative Offices haben keine eigene Rechtspersönlichkeit.

ANGABEN ÜBER VERWALTUNGSRAT, GESCHÄFTSLEITUNG, REVISIONSSTELLE UND WEITERE ORGANE DER ZÜRCHER KANTONALBANK UND DER ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

A. Zürcher Kantonalbank

Die Organe der ZKB sind der Bankrat, das Bankpräsidium und die Generaldirektion sowie die Revisionsstelle (§ 14 des Kantonalbankgesetzes). Die Kompetenzen zwischen Bankrat, Bankpräsidium, Generaldirektion und Revisionsstelle sind im Kantonalbankgesetz (§ 15 – § 18) und im Reglement über die Organisation des Konzerns der ZKB vom vom 15. Dezember 2022 (§ 34f., § 65f., § 77f. und § 92)) geregelt. Die kantonale Oberaufsicht über die ZKB hat der Kantonsrat des Kantons Zürich. Zur Wahrnehmung dieser Oberaufsicht bestellt der Kantonsrat gemäss § 12 des Kantonalbankgesetzes die Kommission für die Aufsicht über die wirtschaftlichen Unternehmen (AWU).

Die Aufsicht gemäss Bankengesetz dagegen obliegt wie bei jeder anderen Bank ausschliesslich und uneingeschränkt der FINMA.

Die wichtigsten Kompetenzen der einzelnen Organe der ZKB sowie der kantonsrätlichen Kommission können dem Corporate Governance-Bericht der Zürcher Kantonalbank für das Geschäftsjahr 2024, der mittels Verweis in dieses Registrierungsformular einbezogen wurde (vgl. den Abschnitt "Einbezug mittels Verweis" nachstehend), entnommen werden.

l. Bankrat

Der Bankrat der ZKB setzt sich per Datum dieses Registrierungsformulars wie folgt zusammen:

Name	Funktion	Dauer
Dr. Jörg Müller-Ganz	Präsident Mitglied des Bankrats	seit 1. Juli 2011 seit 1. Juli 2007

Roger Liebi	Vize-Präsident Mitglied des Bankrats	seit 1. Juli 2019 seit 1. Juli 2018

Beat Bloch, CSP, Zürich	Mitglied

Astrid Furrer, FDP, Horgen	Mitglied
Hanspeter Göldi, SP, Meilen	Mitglied
Andrea Grossen-Aerni, EVP, Hinwil	Mitglied
Roland Kappeler, SP, Winterthur	Mitglied
Monika Keller, FDP, Uster	Mitglied
Thomas Lamprecht, EDU, Bülach	Mitglied
René Truninger, SVP, Pfäffikon	Mitglied

V. Revisionsstelle / Konzernprüfer

Als gesetzliche Revisionsstelle und Konzernprüfer amtet per Datum dieses Registrierungsformulars die Ernst & Young AG, Maagplatz 1, 8005 Zürich (seit 1989).

Das Revisionsorgan wird gemäss § 11 und § 18 des Kantonalbankgesetzes vom Kantonsrat jeweils für eine zweijährige Amtsdauer gewählt, muss von der FINMA anerkannt sein und ist im Register der für das Revisionsorgan zuständigen Eidgenössischen Revisionsaufsichtsbehörde (RAB) eingetragen. Am 27. Mai 2024 bestätigte der Kantonsrat die Wahl der Ernst & Young AG als Revisionsorgan für die Jahre 2025 und 2026.

B. Zürcher Kantonalbank Finance (Guernsey) Limited

Das für die Leitung und Kontrolle der ZKB Guernsey zuständige Organ ist der Verwaltungsrat (Board of Directors).

Der Verwaltungsrat trägt die Verantwortung für alle Angelegenheiten, die nicht durch Gesetz, Statuten oder Reglement einem anderen Organ der Gesellschaft übertragen sind. Als oberstes Leitungsorgan trifft er die grundlegenden Entscheidungen für die ZKB Guernsey und ist berechtigt, die erforderlichen Weisungen zu erteilen. Der Verwaltungsrat bestimmt die Organisationsstruktur der ZKB Guernsey, die Struktur der Buchhaltungsabteilung, die Finanzkontrollen und die Finanzplanung, die für die Leitung der ZKB Guernsey erforderlich sind. Er ernennt auch die für die Leitung und Vertretung der Gesellschaft verantwortlichen Personen. Darüber hinaus beaufsichtigt der Verwaltungsrat die mit der Leitung der Gesellschaft betrauten Personen, insbesondere im Hinblick auf die Einhaltung der Gesetze und Vorschriften. Er kann auch die mit der Geschäftsführung betrauten Personen abberufen.

Der Verwaltungsrat erstellt den Jahresbericht (Jahresbericht und Jahresrechnung) und bereitet die Generalversammlung vor, an welcher er dieser seine Vorschläge für die langfristigen Ziele der ZKB Guernsey und die zu deren Erreichung erforderlichen Massnahmen zur Genehmigung unterbreitet.

I. Verwaltungsrat

Der Verwaltungsrat der ZKB Guernsey setzt sich per Datum dieses Registrierungsformulars wie folgt zusammen:

Name	Funktion	Hintergrund
Felix Oegerli	Präsident	Delegierter der Zürcher Kantonalbank, Zürich
Samuel Stadelmann	Vizepräsident	Delegierter der Zürcher Kantonalbank, Zürich

John Mary Marren	Mitglied	Unabhängiger Berater, Guernsey Non-Executive Director
Alex Margison	Mitglied	Executive Director

Die Geschäftsadresse von Felix Oegerli und Samuel Stadelmann ist an der Josefstr. 222 in 8005 Zürich. Die Geschäftsadresse von John Mary Marren ist Belvoir Rue de la Ree, St Saviour, Guernsey GY7 9PW. Die Geschäftsadresse von Alex Margison ist Harbour House, South Esplanade, St. Peter Port, Guernsey GY1 1AP.

II. Geschäftsführer / Chief Executive Officer

Der Verwaltungsrat hat die Geschäftsführung und Vertretung der ZKB Guernsey an einen Direktor, der das Amt des Geschäftsführers ausübt, delegiert.

Der Geschäftsführer trägt die Gesamtverantwortung für die Leitung und Überwachung der Geschäfte der ZKB Guernsey. Er führt das Tagesgeschäft und vertritt das Unternehmen nach aussen. Er nimmt seine Aufgaben vor Ort in Guernsey wahr. Er kann einzelne Aufgaben an externe Dienstleister und/oder an die Muttergesellschaft delegieren, behält aber die Verantwortung dafür. Eine solche Delegation, die in einem Vertrag festgelegt werden muss, bedarf der Zustimmung des Verwaltungsrates. Der Geschäftsführer wird vom Verwaltungsrat ernannt und kann von diesem abberufen werden.

Der Geschäftsführer der ZKB Guernsey per Datum dieses Registrierungsformulars ist:

Name	Funktion
Alex Margison	Chief Executive Officer

III. Leiter Finanzen / Chief Financial Officer

Die ZKB Guernsey hat einen Chief Financial Officer eingestellt, der den Geschäftsführer als Spezialist in den Themen Finanzbuchhaltung und Berichterstattung unterstützt. Der Chief Financial Officer untersteht direkt dem Geschäftsführer und im Rahmen der Konzernführung und Berichterstattung der Abteilung Finanzbuchhaltung der Zürcher Kantonalbank.

Der Chief Financial Officer kann einzelne Aufgaben delegieren, behält aber die Verantwortung für die Erfüllung dieser Aufgaben.

Der Chief Financial Officer der ZKB Guernsey per Datum dieses Registrierungsformulars ist:

Name	Funktion
Richard Duchemin	Chief Financial Officer

Die Geschäftsadresse von Richard Duchemin ist Harbour House, South Esplanade, St. Peter Port, Guernsey GY1 1AP.

IV. Revisionsgesellschaft

Als Revisionsgesellschaft amtet per Datum dieses Registrierungsformulars die Ernst & Young LLP, Royal Chambers, St Julian's Avenue, St. Peter Port, Guernsey GY1 4AF, Channel Islands (seit dem 17. November 2000).

Ernst & Young LLP ist durch das Institute of Chartered Accountants in England und Wales zugelassen und reguliert und ist als anerkannter Wirtschaftsprüfer durch das Guernsey Registry unter der Companies Ordinance (Recognition of Auditors), 2010 registriert.

GESCHÄFTSTÄTIGKEIT DER ZÜRCHER KANTONALBANK UND DER ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

A. Zürcher Kantonalbank (Konzernobergesellschaft)

Die ZKB ist eine Konzernobergesellschaft, weshalb die nachfolgenden Angaben über die Geschäftstätigkeit konzernweit auf konsolidierter Basis erfolgen.

I. Haupttätigkeit

Die ZKB tätigt die Geschäfte einer Universalbank. Sie schliesst keine Eigengeschäfte ab, bei denen unverhältnismässige Risiken eingegangen werden. Sie betreibt eine Pfandleihkasse.

Der Geschäftsbereich umfasst in geografischer Hinsicht in erster Linie den Wirtschaftsraum Zürich. Geschäfte in der übrigen Schweiz und im Ausland sind zulässig, sofern der ZKB und ihren Tochtergesellschaften daraus keine unverhältnismässigen Risiken erwachsen und dadurch die Befriedigung der Geld- und Kreditbedürfnisse im Kanton Zürich nicht beeinträchtigt wird.

Die Einzelheiten der Geschäftstätigkeit werden durch das Organisationsreglement geregelt. Zudem können weitere Einzelheiten zur Geschäftstätigkeit der ZKB und ihrer Tochtergesellschaften dem Lagebericht der ZKB, der mittels Verweis in dieses Registrierungsformular einbezogen wurde (vgl. den Abschnitt "Einbezug mittels Verweis" nachstehend), entnommen werden.

II. Spezieller Leistungsauftrag

Der im Kantonalbankgesetz geregelte Leistungsauftrag des Kantons Zürich an die ZKB besteht aus dem Versorgungsauftrag, dem Unterstützungsauftrag und dem Nachhaltigkeitsauftrag.

III. Versorgungsauftrag

Die ZKB versorgt die Bevölkerung und Wirtschaft mit den Dienstleistungen einer Universalbank. Diese umfassen Zahlungsverkehr, Sparen, Anlegen, Finanzieren, Vorsorge, Finanzplanung und Nachfolge. Dabei berücksichtigt die ZKB insbesondere die Anliegen der kleinen und mittleren Unternehmen, der Arbeitnehmerinnen und Arbeitnehmer, der Landwirtschaft und der öffentlich-rechtlichen Körperschaften.

Zudem fördert die ZKB das Wohneigentum und den preisgünstigen Wohnungsbau.

Den Kundinnen und Kunden wird auf allen Kanälen, ob physisch oder digital, Zugang zu den Finanzdienstleistungen geboten. Die ZKB verfügt über das dichteste Filianetz im Kanton Zürich und deckt kostengünstig die Grundbedürfnisse ihrer Kundinnen und Kunden ab. Sie zeichnet sich durch eine hohe Qualität ihrer Finanzdienstleistungen aus. Stabilität und Sicherheit sind zentrale Grundpfeiler der ZKB.

Ⅳ. Unterstützungsauftrag

Mit dem Leistungsauftrag unterstützt die ZKB den Kanton bei der Lösung von volkswirtschaftlichen und sozialen Aufgaben.

Die ZKB ist eine der grössten Ausbildungsstätten und eine bedeutende Arbeitgeberin im Kanton. Sie ist eine der grössten Start-up Förderinnen der Schweiz, die die Innovations- und Bildungsinstitute im Kanton Zürich unterstützt. Ihr Beitrag zur Stärkung der Wettbewerbskraft des Kantons ist ein wichtiger Pfeiler ihres

Leistungsauftrags. Mit ihren Sponsoring-Engagements und Vergabungen leistet sie einen Beitrag zur Lebensqualität im Kanton Zürich, um die natürlichen Lebensgrundlagen zu schützen und den gesellschaftlichen Zusammenhalt zu wahren. Deshalb setzt sie sich für die Natur und Umwelt wie auch für die nachhaltige Mobilität, kulturelle Vielfalt und Chancengleichheit, Zugang zu Finanzwissen, für Bildung und Innovation sowie die Förderung von Unternehmertum ein.

V. Nachhaltigkeitsauftrag

Die ZKB orientiert sich an den Zielen für nachhaltige Entwicklung der Vereinten Nationen (Sustainable Development Goals, SDGs), dem Klimaübereinkommen von Paris sowie der Treibhausgasneutralität 2050. Sie verfolgt eine auf Nachhaltigkeit und Kontinuität ausgerichtete Geschäftspolitik. Nachhaltigkeit ist integraler Bestandteil ihres Geschäftsmodells. Bei der Erfüllung des Leistungsauftrags beachtet die ZKB als Universalbank die Grundsätze der Nachhaltigkeit und der anerkannten Regeln des Risikomanagements. Gemäss ihrer Konzernstrategie versteht sie unter Nachhaltigkeit, erfolgreiches wirtschaftliches Handeln und die Verantwortung für Umwelt und Gesellschaft dauerhaft in Einklang zu bringen. Sie setzt sich die Ambition, Nachhaltigkeitsthemen aktiv zu gestalten, bei nachhaltigen Angeboten führend zu sein und ihre Kundinnen und Kunden auf dem Weg in eine nachhaltigere Zukunft zu begleiten.

Mit ihrem Nachhaltigkeitsauftrag fokussiert sie sich auf die betriebliche Nachhaltigkeit, das nachhaltige Bankgeschäft sowie auf die Förderung der Netto-Null Transition mit der Umsetzung der Ziele der Net-Zero Banking Alliance (NZBA) und der Net-Zero Asset Manager Initiative (NZAM). Bei der Umsetzung im eigenen Betrieb ist sie ein Vorbild in den Bereichen Netto-Null und der Mitarbeiterzufriedenheit.

VI. Gerichts-, Schieds- und Administrativverfahren

Per Datum dieses Registrierungsformulars sind nach Kenntnis der Organe der ZKB keine Gerichts-, Schieds- oder Administrativverfahren angedroht oder hängig, die von wesentlicher Bedeutung für die Vermögens- oder Ertragslage der ZKB sind.

B. Zürcher Kantonalbank Finance (Guernsey) Limited

I. Haupttätigkeit

Die ZKB Guernsey begibt strukturierte Anlageprodukte und verkauft diese an die ZKB, welche sie im Markt platziert.

II. Gerichts-, Schieds- und Administrativverfahren

Per Datum dieses Registrierungsformulars sind nach Kenntnis der Organe der ZKB bzw. der ZKB Guernsey keine Gerichts-, Schieds- oder Administrativverfahren angedroht oder hängig, die von wesentlicher Bedeutung für die Vermögens- oder Ertragslage der ZKB Guernsey sind.

C. Angaben über die wesentlichen Geschäftsaussichten der Zürcher Kantonalbank und ihrer Tochtergesellschaften

Für Angaben über die wesentlichen Geschäftsaussichten der ZKB und ihrer Tochtergesellschaften wird auf den Teil "Lagebericht" (S. 23–95) des mittels Verweis in dieses Registrierungsformular aufgenommenen Geschäftsberichts 2024 der ZKB (vgl. den Abschnitt "Einbezug mittels Verweis" nachstehend) verwiesen. Es wird darauf hingewiesen, dass die Angaben im Lagebericht zu den wesentlichen Geschäftsaussichten der ZKB und ihrer Tochtergesellschaften mit Unsicherheit behaftet sind.

KAPITAL UND STIMMRECHTE DER EMITTENTINNEN UND ALLFÄLLIGER GARANTIE- ODER SICHERHEI-TENGEBER

A. Zürcher Kantonalbank

I. Kapitalstruktur

Das Gesellschaftskapital der ZKB besteht ausschliesslich aus dem Dotationskapital (§ 4 Kantonalbankgesetz) und beträgt derzeit 2'425 Mio. CHF. Das Dotationskapital wird der ZKB vom Kanton Zürich unbefristet zur Verfügung gestellt. Der Kantonsrat entschied per 2. November 2020, den zeitlich unbefristeten Dotationskapitalrahmen um 425 Mio. CHF auf 3'425 Mio. CHF zu erhöhen. Das durch den Kantonsrat bewilligte und noch nicht abgerufene Dotationskapital (Dotationskapitalreserve) in der Höhe von 1'000 Mio. CHF wurde durch Beschluss des Bankrats vollumfänglich für die Notfallplanung der Bank reserviert und wird an die Gone-concern-Kapitalkomponente angerechnet. Die Dotationskapitalreserve kann demzufolge nur noch auf Anordnung der FINMA oder eines von dieser eingesetzten Sanierungsbeauftragten abgerufen werden. Weitere eigene Mittel beschafft sich die ZKB durch die Äufnung von Reserven sowie durch Aufnahme von nachrangigen Verbindlichkeiten (§ 5 Kantonalbankgesetz).

II. Ausstehende Wandel- und Optionsrechte und Anleihen

Per Stichtag des Jahresabschlusses für das Geschäftsjahr 2024 hatte die ZKB keine Wandel- oder Optionsrechte ausstehend.

Per Stichtag des Jahresabschlusses für das Geschäftsjahr 2024 hatte die ZKB Kassenobligationen mit einem Gesamtnennwert von CHF 260 Mio. (2023: CHF 288 Mio.), Obligationsanleihen mit einem Gesamtnennwert von CHF 10'994 Mio. (2023: CHF 10'547 Mio.), Geldmarktpapiere mit einem Gesamtnennwert von CHF 50 Mio. (2023: CHF 632 Mio.) sowie Pfandbriefdarlehen mit einem Gesamtnennwert von CHF 11'162 Mio. (2023: CHF 11'558 Mio.) ausstehend.

III. Eigene Beteiligungspapiere

Per Stichtag des Jahresabschlusses für das Geschäftsjahr 2024 und per Datum dieses Registrierungsformulars hielt weder die ZKB noch eine ihrer Tochtergesellschaften eigene Beteiligungspapiere.

B. Zürcher Kantonalbank Finance (Guernsey) Limited

Die ZKB Guernsey ist eine juristische Person, deren Zweck unlimitiert ist, insbesondere aber die Ausgabe von Finanzinstrumenten bezweckt. Bei der ZKB Guernsey handelt es sich damit um eine sog. Sonderzweckgesellschaft (Special Purpose Vehicle) nach Art. 96 Abs. 2 FIDLEV, dessen Garantie- oder Sicherheitengeber (die ZKB) ein Institut nach Art. 70 Abs. 1 FIDLEG ist. Es wird daher an dieser Stelle auf die Angaben zur ZKB verwiesen.

ABSCHLÜSSE DER ZÜRCHER KANTONALBANK UND DER ZÜRCHER KANTONALBANK FINANCE (GUERN-SEY) LIMITED

A. Zürcher Kantonalbank

1. Jahresabschlüsse und damit im Zusammenhang stehende Dokumente

Der mittels Verweis in dieses Registrierungsformular einbezogene Teil "Finanzbericht" für die Geschäftsjahre 2023 und 2024 der ZKB (vgl. den Abschnitt "Einbezug mittels Verweis" nachstehend) enthält unter anderem die vom zuständigen Revisionsorgan geprüfte konsolidierte Jahresrechnung inkl. Revisionsstellenbericht der ZKB. Zusätzlich enthält der Finanzbericht den Einzelabschluss der ZKB (Stammhaus) inkl. dem dazugehörigen Revisionsstellenbericht.

Die konsolidierte Jahresrechnung der ZKB umfasst die Abschlüsse des Stammhauses der ZKB und der direkt und indirekt gehaltenen wesentlichen Tochtergesellschaften, an denen die Bank Beteiligungen von mehr als 50 Prozent am stimmberechtigten Kapital hält oder die auf eine andere Weise beherrscht werden. Die Darstellung der Konzernrechnung richtet sich nach der wirtschaftlichen Betrachtungsweise. Die Einzelabschlüsse der Konzerngesellschaften basieren auf einheitlichen, konzernweit gültigen Rechnungslegungsstandards.

II. Wesentliche Veränderungen seit dem letzten Jahresabschluss

Seit dem Jahresabschluss für das Geschäftsjahr 2024 haben sich keine wesentlichen Veränderungen in der Vermögens-, Finanz- und Ertragslage der ZKB ergeben.

B. Zürcher Kantonalbank Finance (Guernsey) Limited

L. Jahresabschlüsse und damit im Zusammenhang stehende Dokumente

In Anlage 1 befinden sich die Jahresabschlüsse der ZKB Guernsey für die Geschäftsjahre 2023 (Anlage 1A) und 2024 (Anlage 1B), welche jeweils auch den Revisionsstellenbericht enthalten.

II. Wesentliche Veränderung seit dem letzten Jahresabschluss

Seit dem Jahresabschluss für das Geschäftsjahr 2024 haben sich keine wesentlichen Veränderungen in der Vermögens-, Finanz- und Ertragslage der ZKB Guernsey ergeben.

ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED DIRECTORS' REPORT

The Directors submit their report and the audited financial statements for the year ended 31 December 2023.

Activities

The principal activity of Zürcher Kantonalbank Finance (Guernsey) Limited ("the Company") is to carry on business as a finance company and to borrow or raise money by the issue of financial instruments of whatsoever nature.

Results

The results of the Company are shown in the Statement of Comprehensive Income on page 6.

Dividend

The Directors do not recommend the payment of a dividend.

Directors

The Directors of the Company are those listed in the Company Information.

Statement of Directors' responsibilities in respect of the financial statements

The Directors are responsible for preparing the financial statements in accordance with applicable Guernsey law and generally accepted accounting principles.

Guernsey company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year. In preparing those financial statements, the Directors should:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies (Guernsey) Law, 2008. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

So far as each of the Directors is aware, there is no relevant audit information of which the Company's auditor is unaware, and each has taken all the steps he ought to have taken as a Director to make himself aware of any relevant audit information, and to establish that the Company's auditor is aware of that information.

Going concern

As detailed in note 2) (b) to these financial statements, the Directors have considered the external factors affecting the results of the Company and used a range of scenarios based thereon to assess the adequacy of the Company's financial resources to continue in operational existence up until 30 June 2025. Based on this assessment the Directors are satisfied that it is appropriate to prepare the financial statements on a going concern basis.

Auditor

A resolution to reappoint Ernst & Young LLP as auditor will be put to the members at the Annual General Meeting.

For and on behalf of the Board

Director:

Director:

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

Opinion

We have audited the financial statements of Zurcher Kantonalbank Finance (Guernsey) Limited (the "company") for the year ended 31 December 2023 which comprise the Statement of Comprehensive Income, the Statement of Changes in Equity, the Statement of Financial Position, the Statement of Cash Flows and the related notes 1 to 20, including a summary of material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards as adopted by the European Union.

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2023 and of its profit for the year then ended:
- have been properly prepared in accordance with International Financial Reporting Standards as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of The Companies (Guernsey) Law, 2008.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements, including the UK FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period to 30 June 2025.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which The Companies (Guernsey) Law, 2008 requires us to report to you if, in our opinion:

- · proper accounting records have not been kept by the company; or
- · the financial statements are not in agreement with the company's accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Statement of Directors' responsibilities in respect of the financial statements set out on page 2, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are those that relate to the reporting framework (International Financial Reporting Standards as adopted by the European Union and The Companies (Guernsey) Law, 2008);
- We understood how the company is complying with those frameworks by making enquiries of the directors and those responsible for compliance matters and corroborated this by examining quarterly compliance reports and minutes of meetings of the Board of Directors. We gained an understanding of the Board's approach to governance, demonstrated by its review of the monthly financial management reports, oversight by the Audit Committee and internal control processes;
- We assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by considering the risk of management override and by identifying the manipulation of bond interest income as a fraud risk. We considered the controls the company has established to address risks identified by the directors or that otherwise seek to prevent, detect or deter fraud and how management and those charged with governance monitor those controls. We also considered the existence of any stakeholder influences which may cause management to seek to manipulate the financial performance and did not note any;
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and
 regulations. Our procedures involved reading the minutes of meetings of the Board of Directors and compliance
 reports; making inquiries of those charged with governance; and performance of journal entry testing based on
 our risk assessment and understanding of the business, with a focus on non-standard journals and those relating
 to areas with an identified associated fraud risk, as described above. We performed a controls based audit and
 tested the controls in place regarding the calculation and recording of bond interest income.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud (continued)

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Section 262 of The Companies (Guernsey) Law 2008. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

For the year ended 31 December 2023

1 Corporate information

Zürcher Kantonalbank Finance (Guernsey) Limited is a finance company and borrows or raises money by the issue of financial instruments of whatsoever nature. The Company was incorporated and is registered in Guernsey with the registered office being at Bordage House, Le Bordage, St Peter Port, Guernsey, GY1 1BU.

2 Material accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements of the Company.

2 a) Basis of preparation

The financial statements have been prepared under the historical cost convention as modified by the revaluation to fair value through profit or loss of derivative financial instruments, over-the-counter ("OTC") options, securities, term deposits with banks and financial liabilities and in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

2 b) Going concern

The Company's financial position, its cash flows and liquidity position are set out in the financial statements. In addition, note 12 to the financial statements includes the Company's risk management and policies, details of its financial instruments, its exposures to credit risk and liquidity risk and its objectives, policies and processes for managing its capital.

The Russian invasion of Ukraine, inflationary pressures and the constrained recruitment market in Guernsey continue to have affect on the results of the Company in the following known ways:

- Increased volatility in financial markets has seen increased volatility in the value of the Company's financial assets and liabilities:
- Increased supplier prices and a rent review linked to the Guernsey Retail Price Index has resulted in increased operating expenses; and
- Guernsey labour market shortages has seen an increase in recruitment costs and employee expenses.

Management have therefore used a range of scenarios that may occur up until 30 June 2025 based upon events occurring during 2023 and to date, including a reasonable worst-case scenario, to assess whether the entity can continue as a going concern. These include, but are not limited to, the following:

- · Continued volatility and/or reduced liquidity in financial markets;
- The Company's existing reserves and future liquidity requirements;
- The inability to retain and/or replace key staff;
- The appropriateness of the carrying value of the Company's assets;
- The appropriateness of the expected credit loss rate on trade receivables;

Based on the results of the scenario analysis described above, the designation of the parent entity by the Swiss National Bank as a domestic systemically important bank, and the keepwell agreement in place between the parent entity and the Company, the Directors are satisfied that it is appropriate to prepare the financial statements on a going concern basis.

As at 31 December 2023 the company held CHF 544,225 (2022: CHF 566,660) of securities issued directly by or through subsidiaries of Russian companies. These securities are held as hedging instruments for structured product liabilities whose fair value is linked to the performance of these securities, therefore the overall net financial effect on the company to date has been minimal.

For the year ended 31 December 2023

2 Material accounting policies (continued)

2 c) Financial instruments

2 c) (i) Classification

In accordance with IFRS 9, the Company classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below. In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- · It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
- On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking; or
- It is a derivative (except for a derivative that is a designated and effective hedging instrument).

2 c) (i) (1) Financial assets

The Company classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- · The Company's business model for managing the financial assets; and
- · The contractual cash flow characteristics of the financial asset.

Financial assets measured at amortised cost

A financial instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company includes in this category term deposits in banks with original maturities of more than three months or less, short-term non-financing receivables including accrued interest receivable and prepayments.

Financial assets measured at fair value through profit or loss ("FVTPL")

A financial asset is measured at FVTPL if:

- Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest ("SPPI") on the principal amount outstanding; or
- It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- At initial recognition, it is irrevocably designated as measured at FVTPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The Company includes in this category:

- Debt instruments: these include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains; and
- · Equity instruments: these include investments in listed equities;
- · Exchange traded funds: these include investments that are held as direct hedging instruments; and
- Instruments held for trading: this includes equity instruments and debt instruments which are acquired principally
 for the purpose of generating a profit from short-term fluctuations in price. This category also includes derivative
 contracts in an asset position.

2 c) (i) (2) Financial liabilities

Financial liabilities measured at FVTPL

A financial liability is measured at FVTPL if it meets the definition of held for trading.

The Company includes in this category derivative contracts in a liability position and equity and debt instruments sold short since they are classified as held for trading.

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss. The Company includes in this category bank overdrafts and other short-term payables.

For the year ended 31 December 2023

2 Material accounting policies (continued)

2 c) (ii) Measurement

After initial measurement, the Company measures financial instruments which are classified as at FVTPL at fair value. Subsequent changes in the fair value of those financial instruments are recorded in net gain or loss on financial assets and liabilities at FVTPL in the statement of comprehensive income as part of net trading income (see note 6). Interest and dividends earned or paid on these instruments are recorded in the statement of comprehensive income as part of net trading income (see note 6).

Debt instruments, other than those classified as at FVTPL, are measured at amortised cost using the effective interest method less any allowance for impairment. Gains and losses are recognised in profit or loss when the debt instruments are derecognised or impaired, as well as through the amortisation process.

Financial liabilities, other than those classified as at FVTPL, are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, as well as through the amortisation process.

2 d) Fair value measurement

The Company measures its investments in financial instruments, such as equity instruments, debt instruments, other interest bearing investments and derivatives, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted price (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For all other financial instruments not traded in an active market, the fair value is determined using valuation techniques deemed to be appropriate in the circumstances. Valuation techniques include the market approach (i.e., using recent arm's length market transactions, adjusted as necessary, and reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

For assets and liabilities that are measured at fair value on a recurring basis, the Company identifies transfers between levels in the hierarchy by re-assessing the categorisation (based on the lowest level input that is significant to the fair value measurement as a whole), and deems transfers to have occurred at the beginning of each reporting period.

3 Changes in accounting policies and disclosures

The Company applied for the first time certain standards and amendments which are effective for annual periods beginning on or after 1 January 2023. The nature and the impact of each new standard and amendment is described below:

For the year ended 31 December 2023

3 Changes in accounting policies and disclosures (continued)

3 a) Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)

The amendments are intended to help preparers in deciding which accounting policies to disclose in their financial statements. They amend IAS 1 by requiring an entity to disclose its material accounting policies instead of its significant accounting policies, add clarifications and explanations regarding the definition of a material accounting policy, and deal with the disclosure of immaterial accounting policies. In addition, IFRS Practice Statement 2 is amended by adding guidance and examples to explain and demonstrate the application of the 'four-step materiality process' to accounting policy information in order to support the amendments to IAS 1.

These amendments reduced the number of accounting policies disclosed in note 2) to these financial statements.

3 b) Definition of Accounting Estimates (Amendments to IAS 8)

The changes to IAS 8 focussed on accounting estimates and introduced a new definition of accounting estimates as "monetary amounts in financial statements that are subject to measurement uncertainty", and clarified that a change in accounting estimate that results from new information or developments is not the correction of an error, whilst the effects of a change in an input or measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors. It further clarified that a charge in accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods, and when the effect of the change should be recognised in the current period and in the future periods.

These amendments had no impact on the financial statements of the Company.

3 c) Property, Plant and Equipment - Proceeds Before Intended Use (Amendments to IAS 16)

The amendments prohibited deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity should recognise the proceeds from selling such items, and the cost of producing those items, in profit or loss.

These amendments had no impact on the financial statements of the Company.

4 Accounting standards, interpretations and amendments issued by not yet effective

At the date of authorisation of these financial statements, the following relevant standards and interpretations, which have not been applied, were in issue but not yet effective:

4 a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants (Amendments to IAS 1)

The amendments affect only the presentation of liabilities in the statement of position, not the amount or timing of recognition of any asset, liability, income or expense, or the information that entities disclose about those items. They clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the "right" to defer settlement by at least twelve months and make explicit that only rights in place "at the end of the reporting period" should affect the classification of a liability. Furthermore, they also clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability and make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

The amendments are effective for annual reporting periods beginning on or after 1 January 2024 and are to be applied retrospectively. They are not expected to have any impact on the financial statements of the Company.

For the year ended 31 December 2023

4 Accounting standards, interpretations and amendments issued by not yet effective (continued)

4 b) IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures

The objectives of IFRS S1 and IFRS S1 are to require an entity to disclose information about its sustainability and climate-related risks and opportunities that is useful to users of general purpose financial reports in making decisions relating to providing resources to the entity. They require an entity to disclose information about all related matters that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term.

IFRS S1 and IFRS S2 are effective for annual reporting periods beginning on or after 1 January 2024 with earlier application permitted as long as both standards are applied. The Company has opted not to early apply IFRS S1 or IFRS S2.

5 Taxation

The Company is taxed at the Company standard rate (0%) in Guernsey.

10 Derivative contracts

Derivative contracts serve as components of the structured product financial liabilities of the Company. The derivative contracts that the Company may hold or issue include: futures; options; forward currency contracts; currency swaps; interest rate caps and floors; interest rate swaps; total return swaps; and credit default swaps.

The Company uses derivative financial instruments to economically hedge its risks associated with fluctuations in the value of structured product financial liabilities and interest rate risk associated with the Guernsey Risk Manager portfolio (the Company does not designate any derivative as a hedging instrument for hedge accounting purposes).

Derivatives often reflect, at their inception, only a mutual exchange of promises with little or no transfer of tangible consideration. However, these instruments frequently involve a high degree of leverage and are very volatile. A relatively small movement in the underlying of a derivative contract may have a significant impact on the value of the contract.

OTC derivatives may expose the Company to the risks associated with absence of an exchange market on which to close out an open position. The counterparty for all derivative contracts in force at the year-end was the Company's parent entity, Zürcher Kantonalbank, and as such no credit valuation adjustments or debit valuation adjustments have been made to the OTC derivatives in the current or previous year. As at the date of signing these financial statements, Standard & Poor's had assigned Zürcher Kantonalbank a credit rating of AAA.

The following table shows the fair value of derivative financial instruments, recorded as assets or liabilities, together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of the derivative are measured. The notional amounts indicate the volume of transactions outstanding at the reporting dates and are not indicative of either market risk or credit risk.

11 Fair value of financial instruments

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- · Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following tables show the recurring hierarchy for financial assets and liabilities recognised at fair value:

For all other financial assets and liabilities, the carrying value is an approximation of fair value, including: trade and other receivables; cash and cash equivalents; and trade and other payables.

There were no changes to valuation techniques or transfers between Levels 1, 2 and 3 during the year.

Where there are quoted prices in an active market for identical assets or liabilities, a security is included in Level 1. Where values are based on inputs other than quoted prices included within Level 1, such as quoted prices for similar assets or liabilities in active markets, or quoted prices for identical assets or liabilities in markets that are not active, they are included in Level 2.

The fair values of options are calculated using an option pricing model based on direct market data, e.g., bond or share prices, and indirect market data, e.g., interest, implied volatility and dividend estimates. The fair value of such options is included within Level 2.

The fair values of other derivatives are calculated based on quotes from counterparties to the agreements which are corroborated by market data. The fair value of such interest rate swaps is included within Level 2.

The fair values of structured product financial instruments, which are set up as combinations of the components of the respective structured product, are calculated based on the sum of the valuations of its components. As the fair values of the components of the structured products are either Level 1 (securities held for trading) or Level 2 (term deposits with banks and derivative financial instruments), the fair value of such structured products is included within Level 2.

For the year ended 31 December 2023

12 Financial risk and management objectives and policies

12 a) Introduction

The main risks that the Company is exposed to are credit risk, liquidity risk and market risk (which includes interest rate risk, currency risk and price risk). The Directors regularly review and agree policies for managing each of these risks as summarised below, which includes the use of derivatives and other financial instruments. The risk management guidelines for the Company set out guidelines for identifying, managing and monitoring the risks to which the Company is exposed and in particular:

- · define the rules and procedures for managing credit, liquidity and market risks;
- set out the applicable long-term risk policies of the Company and Zürcher Kantonalbank;
- · define the entity to which duties and responsibilities in relation to risk monitoring are assigned; and
- provide an overview of relevant powers and responsibilities.

The general guidelines are:

- credit, liquidity and market risks shall be managed in accordance with the rules and policies laid down in the guidelines on risk management for Zürcher Kantonalbank, and its subsidiaries (collectively, the "group") risk policies;
- subject to the constraints of the applicable group risk policies, the Company shall define appropriate limits with a view to mitigating default and market risks;
- Zürcher Kantonalbank shall be responsible for managing risks subject to approved limits;
- Zürcher Kantonalbank shall be responsible for quantifying risk, preparing reports on risk monitoring conducted, and reporting on risks; and
- the Directors of the Company shall be entitled to limit the level of risk exposure and the list of approved products at any time.

There were no changes to the Company's risk management guidelines during the reporting period.

12 b) Risk management structure

The Chief Executive Officer of the Company is responsible for monitoring both the liquidity and solvency of the Company and compliance with the Company's risk limits. Furthermore, the Chief Executive Officer is also responsible for documenting risks limits, defining actions to be taken in the event of a breach of any of those limits, informing the Directors of any limit breaches and subsequent actions taken.

The Directors supervise management and are ultimately responsible for the overall risk management of the Company.

12 c) Risk measurement and reporting system

Risk measurement, preparation of risk monitoring reports and risk reporting have been delegated to Zürcher Kantonalbank. To ensure a constant monitoring of risk by the Company's management, a risk report is prepared by Zürcher Kantonalbank on a daily basis and is sent to the management of the Company.

The Directors of the Company have defined the following sensitivity limits for credit risk, interest rate risk and currency risk, as well as counterparty exposure limits, which are calculated on a daily or weekly basis by Zürcher Kantonalbank.

12 c) (i) Credit spread risk sensitivity limits

Credit spread risk refers to debt instruments and is related to daily changes in the spread of an instrument's yield curve over the zero-coupon Treasury yield curve (the z-spread). The sensitivity limit defines the maximum profit and loss daily change limit permitted on the theoretical hedging costs on the Company's treasury management portfolio. The Directors have defined a maximum credit spread sensitivity ("DV01") per issuer with a view to mitigating the credit risk associated with debt instruments.

For the year ended 31 December 2023

12 Financial risk and management objectives and policies (continued)

12 c) (i) Credit spread risk sensitivity limits (continued)

DV01 is calculated as the sensitivity of a contract to a 1 basis point fluctuation in the credit spread curve and is set at a level that the Directors believe allows for sufficient returns to be generated on the Company's securities held for trading without exposing it to excessive credit risk.

credit	Current	credit	Current	
spread		spread		
CHF'000	CHF'000	CHF'000	CHF'000	
< 35	13	< 35	14	

12 c) (ii) Counterparty exposure limits

Counterparty exposure refers to the debt instruments within securities held for trading and relates to the risk of issuer default. The Directors have defined minimum credit ratings and maximum permitted nominal holdings per issuer for each credit rating category with a view to mitigating the default risk associated with securities.

Counterparty exposure is calculated on an aggregate basis for all securities held for trading within the treasury management portfolio, and is based on the lower of the two ratings provided by Standard & Poor's and Moody's ratings agencies.

For the year ended 31 December 2023

12 Financial risk and management objectives and policies (continued)

12 c) (iii) Interest rate sensitivity limits

Interest rate sensitivity is measured by reference to Rho, which is the rate at which the price of a derivative changes relative to a change in the risk free rate of interest. It is expressed as the amount of money, per share of the underlying, that the value of the option will gain or lose as the risk free interest rate rises or falls by one basis point.

	31 December 2023		31 December 2022	
	Limit	Sensitivity	Limit	Sensitivity
	CHF'000	CHF'000	CHF'000	CHF'000
Effect of 1 basis point movement in risk free interest rate	+/- 100	+/- 4	+/- 100	+/- 4

12 c) (iv) Foreign currency limits

The foreign exchange sensitivity limit is the maximum permitted movement in profit or loss caused by a 1% movement in the value of the Swiss franc.

	31 December 2023		31 December 2022	
	Limit CHF'000	Sensitivity CHF'000	Limit CHF'000	Sensitivity CHF'000
Effect of 1% movement in the value of the Swiss franc	+/- 1,000	+/- 0	+/- 1,000	+/- 3

12 d) Risk mitigation

The Company uses derivatives and other financial instruments for trading purposes to manage exposures resulting from changes in credit risks, interest and foreign currency rates.

12 e) Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Company by failing to discharge an obligation. The Company is exposed to the risk of credit-related loss that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations. These credit exposures exist within debt instruments, derivative assets, short term receivables and cash and cash equivalents.

Credit risk disclosures are segmented into two sections based on whether the underlying financial instrument is subject to IFRS 9's impairment disclosures or not.

12 e) (i) Financial assets subject to IFRS 9's impairment requirements

The Company's only financial assets subject to the Expected Credit Loss ("ECL") model within IFRS 9 are short term trade and other receivables. At 31 December 2023, the total of short-term trade and receivables was CHF nil, on which no loss allowance has been provided (31 December 2022: total of CHF nil, on which no loss had been incurred). There is not considered to be any concentration of credit risk within these assets. No assets are considered impaired and no amounts have been written off in the period.

As all trade and other receivables are impacted by IFRS 9 ECL model the Company has adopted the simplified approach. The loss allowance shown is therefore based on lifetime ECLs.

In calculating the loss allowance, a provision matrix has been used based on historical observed loss rates over the expected life of the receivables adjusted for forward-looking estimates. Items have been grouped by their nature into the following categories: accrued income; amounts due from counterparties; and other receivables.

For the year ended 31 December 2023

12 Financial risk and management objectives and policies (continued)

12 e) (ii) Financial assets not subject to IFRS 9's impairment requirements

The Company is exposed to credit risk on debt instruments and derivative assets. These classes of financial assets are not subject to IFRS 9's impairment requirements as they are measured at FVTPL. The carrying value of these assets represent the Company's maximum exposure to credit risk on financial instruments not subject to the IFRS 9 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

The following table analyses the sensitivity of the Company's treasury management portfolio to changes in credit spreads:

12 f) Liquidity risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity arises because of the possibility that the Company could be required to pay its liabilities earlier than expected. The Company is exposed to cash repayments of its structured product financial liabilities on a regular basis.

As detailed in note 19, the Company has entered into a keep-well agreement with Zürcher Kantonalbank (the "Parent") whereby should the Company be unable to meet any payment obligation relating to structured product financial liabilities then the Parent will make available sufficient funds to allow the Company to fulfil any payment obligations as they fall due.

There is no direct matching of the maturity profiles of the structured products with the securities held, however the Company's liquidity profile is constantly monitored as an important part of the treasury management process. Liquidity risk management consists of short term (3 months) and long term (3 years) monitoring of cash flows.

For the year ended 31 December 2023

12 Financial risk and management objectives and policies (continued)

12 f) Liquidity risk (continued)

The following tables show a net liquidity surplus for the next year, when the treasury management portfolio is classified according to final maturity dates. The securities held in the treasury management portfolio are primarily debt instruments which, under normal market conditions are readily convertible to cash. As such their final maturity dates are not intended to closely match the final maturity profile of financial liabilities held at FVTPL:

12 g) Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices. The maximum risk resulting from financial instruments, except for written equity-linked derivatives, equals their fair value. With written equity-linked derivatives, the Company bears the market risk of an unfavourable change in the price of the security underlying the option.

12 g) (i) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments. The Company writes interest rate derivatives, mainly being interest rate swaps in which the Company agrees to exchange, at specified intervals. The difference between fixed and variable interest amounts is calculated by reference to an agreed-upon notional principal amount in an effort to manage these risks. The majority of interest rate exposure arises on investment in debt securities and the interest rate profile is shown below.

For the year ended 31 December 2023

12 Financial risk and management objectives and policies (continued)

12 g) (i) Interest rate risk (continued)

The following table analyses the Company's interest rate exposure. The Company's assets and liabilities are included at their carrying amount and are categorised by their maturity dates:

For the year ended 31 December 2023

12 Financial risk and management objectives and policies (continued)

12 g) (ii) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company invests in securities and issues structured products that are denominated in currencies other than the Swiss franc. Accordingly, the value of the Company's assets and liabilities may be affected favourably or unfavourably by fluctuations in currency rates.

The Company writes derivatives, such as currency forwards, to hedge foreign currency denominated financial instruments and increases or decreases in the fair value of the Company's foreign currency denominated financial assets and liabilities are partially offset by gains and losses on the economic hedging instruments.

The following table indicates the currencies to which the Company had significant exposure as at 31 December on its monetary assets and liabilities.

12 g) (iii) Price risk

Equity price risk is the risk of unfavourable changes in the fair value of equity instruments or equity-linked derivatives as a result of changes in the levels of equity indices and the value of individual shares. The Company manages equity risk on its exposure to equity-linked structured products by writing equity-linked derivatives as a hedge against the movement in their price. The Company is therefore only exposed to equity price risk on the revaluation of equities purchased to meet obligations under equity-settled structured product liabilities which are valued based on the equity purchase price and are therefore subsequently settled at nil gain/loss.

Management's best estimate of the effect on profit or loss for a year due to a reasonably possible change in equity indices, with all other variables held constant, is indicated in the table below. There is no effect on other comprehensive income as the Company has no assets classified as fair value through other comprehensive income or designated hedging instruments. In practice the actual trading results may differ from the sensitivity analysis below and the difference could be material. An equivalent decrease in equity indices as shown below would have resulted in an equivalent, but opposite, impact.

For the year ended 31 December 2023

12 Financial risk and management objectives and policies (continued)

12 g) (iii) Price risk (continued)

		Effect on net in	come for the
	Change in	year ended 31 Decem	
	equity index	2023	2022
	%	CHF'000	CHF'000

Depreciation expense	(53)	(53)
As at 31 December 2023	121	121

Set out below are the carrying amount of lease liabilities (included under interest-bearing loans and borrowings) and the movements during the year:

	Year ended 31 December 2023 CHF'000	Year ended 31 December 2022 CHF'000
As at 1 January	179	213
Fair value adjustment	(15)	45
Accretion of interest	3	4
Payments	(69)	(64)
Foreign exchange differences	2	(19)
As at 31 December	100	179
Current (see note 15)	63	68
Non-current (see note 15)	37	111

The maturity analysis of lease liabilities are disclosed in note 16.

For the year ended 31 December 2023

13 Leases (continued)

The following are the amounts recognised in the statement of income:

····· ································		
	Year ended	Year ended
3	31 December	31 December
	2023	2022
	CHF'000	CHF'000
Depreciation expense of right-of-use assets	53	54
Interest expense on lease liabilities	3	4
Loss/(gain) on revaluation of lease liabilities	2	(19)
Total amount recognised in statement of income	58	39

The Company had total cash outflows for leases of CHF 68,874 in 2023 (CHF 63,717 in 2022).

14 Cash, amounts due from / to banks, money at call

3	31 December	31 December
	2023	2022
	CHF'000	CHF'000
Due from banks, Guernsey	98	82
Due from banks, Zürcher Kantonalbank	74,581	82,011
	74,679	82,093
Due to banks, Zürcher Kantonalbank	(23,494)	(47,094)
	(23,494)	(47,094)
Total net cash, amounts due from / to banks, money at call	51,185	34,999

The amounts due from banks in Guernsey accrue interest income at variable market rates. The amounts due from Zürcher Kantonalbank do not accrue interest.

With effect from 1 November 2023, the Company entered into a loan agreement with respect to the amounts due to Zürcher Kantonalbank. From this date the amounts due accrue interest at the below interest rates and are repayable within 3 months of termination of the loan agreement. Prior to this date all amounts due to Zürcher Kantonalbank did not accrue interest and were repayable on demand.

	CHF	USD	EUR	GBP	Other
Amounts due up to CHF 50,000,000 (or currency equivalent) per account, subject to a maximum aggregate balance of CHF 75,000,000 (or currency equivalent)	Swiss National Bank Policy Council Rate	Federal Funds Target Rate · Up	European Central Bank Main Refinancing Operation Rate	Bank of England Official Bank Rate	No interest applied

Amounts due in excess of CHF 50,000,000 (or currency equivalent) per account or in excess of an aggregate balance of CHF 75,000,000 (or currency equivalent) accrue interest at the rates shown above plus 2% and are repayable immediately.

For the year ended 31 December 2023

17 Share capital

Gildio Supital	31 December 2023 CHF'000	31 December 2022 CHF'000
Authorised 1,000 Ordinary shares of CHF1,000 each	1,000	1,000
Allotted, called up and fully paid 1,000 Ordinary shares of CHF1,000 each	1,000	1,000

Each holder of a fully paid ordinary share is entitled to one vote for each share owned. When and as dividends are declared upon the ordinary share capital of the Company, the holders of ordinary shares are entitled to share equally, share for share, in such dividends. In the event of liquidation of the Company, the holders of ordinary shares shall be entitled to receive any of the remaining assets of the Company after the distribution of all preferred amounts. The amount distributed will be in proportion to the number of equity shares held by the shareholders.

18 Capital management

The Company considers its capital to comprise its share capital and retained earnings which amounted CHF 127,948,145 as at 31 December 2023 (2022: CHF 118,307,484). The Company's capital management objectives are to achieve consistent returns while safeguarding capital and to maintain sufficient liquidity to meet the expenses of the Company and to meet its liabilities as they arise.

To achieve the above objectives, the Company invests in term deposits with group approved banks and bonds with an appropriate credit rating (see note 12).

The Company is not subject to externally imposed capital requirements and has no restrictions on the issue or repurchase of ordinary shares.

19 Related party disclosures

Parent and ultimate controlling party

The immediate and ultimate parent undertaking is Zürcher Kantonalbank, a company incorporated in Switzerland.

Transactions with related parties

The following table provides the total amount of transactions that have been entered into with related parties for the relevant financial year:

		Income	Expenses	Due to	Due from

ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED DIRECTORS' REPORT

The Directors submit their report and the audited financial statements for the year ended 31 December 2024.

Activities

The principal activity of Zürcher Kantonalbank Finance (Guernsey) Limited ("the Company") is to carry on business as a finance company and to borrow or raise money by the issue of financial instruments of whatsoever nature.

Results

The results of the Company are shown in the Statement of Comprehensive Income on page 6.

Dividend

The Directors do not recommend the payment of a dividend.

Directors

The Directors of the Company are those listed in the Company Information.

Statement of Directors' responsibilities in respect of the financial statements

The Directors are responsible for preparing the financial statements in accordance with applicable Guernsey law and generally accepted accounting principles.

Guernsey company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that year. In preparing those financial statements, the Directors should:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies (Guernsey) Law, 2008. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

So far as each of the Directors is aware, there is no relevant audit information of which the Company's auditor is unaware, and each has taken all the steps he ought to have taken as a Director to make himself aware of any relevant audit information, and to establish that the Company's auditor is aware of that information.

Going concern

As detailed in note 2) (b) to these financial statements, the Directors have considered the external factors affecting the results of the Company and used a range of scenarios based thereon to assess the adequacy of the Company's financial resources to continue in operational existence up until 30 June 2026. Based on this assessment the Directors are satisfied that it is appropriate to prepare the financial statements on a going concern basis.

Auditor

A resolution to reappoint Ernst & Young LLP as auditor will be put to the members at the Annual General Meeting.

For and on behalf of the Board

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

Opinion

We have audited the financial statements of Zurcher Kantonalbank Finance (Guernsey) Limited (the "company") for the year ended 31 December 2024 which comprise the Statement of Comprehensive Income, the Statement of Changes in Equity, the Statement of Financial Position, the Statement of Cash Flows and the related notes 1 to 19, including material accounting policy information. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards as adopted by the European Union.

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of The Companies (Guernsey) Law, 2008.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements, including the UK FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period to 30 June 2026.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which The Companies (Guernsey) Law, 2008 requires us to report to you if, in our opinion:

- · proper accounting records have not been kept by the company; or
- the financial statements are not in agreement with the company's accounting records and returns; or
- · we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Statement of Directors' responsibilities in respect of the financial statements set out on page 2, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are those that relate to the reporting framework (International Financial Reporting Standards as adopted by the European Union and The Companies (Guernsey) Law, 2008);
- We understood how the company is complying with those frameworks by making enquiries of the directors and
 those responsible for compliance matters and corroborated this by examining quarterly compliance reports and
 minutes of meetings of the Board of Directors. We gained an understanding of the Board's approach to
 governance, demonstrated by its review of the monthly financial management reports, oversight by the Audit
 Committee and internal control processes;
- We assessed the susceptibility of the company's financial statements to material misstatement, including how
 fraud might occur by considering the risk of management override and by identifying the manipulation of bond
 interest income as a fraud risk. We considered the controls the company has established to address risks
 identified by the directors or that otherwise seek to prevent, detect or deter fraud and how management and those
 charged with governance monitor those controls. We also considered the existence of any stakeholder influences
 which may cause management to seek to manipulate the financial performance and did not note any; and
- Based on this understanding we designed our audit procedures to identify noncompliance with such laws and
 regulations. Our procedures involved reading the minutes of meetings of the Board of Directors and compliance
 reports; making inquiries of those charged with governance; and performance of journal entry testing based on our
 risk assessment and understanding of the business, with a focus on non-standard journals and those relating to
 areas with an identified associated fraud risk, as described above. We performed a controls based audit and
 tested the controls in place regarding the calculation and recording of bond interest income.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ZÜRCHER KANTONALBANK FINANCE (GUERNSEY) LIMITED

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud (continued)

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Section 262 of The Companies (Guernsey) Law 2008. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1 Corporate information

Zürcher Kantonalbank Finance (Guernsey) Limited is a finance company and borrows or raises money by the issue of financial instruments of whatsoever nature. The Company was incorporated and is registered in Guernsey with the registered office being at Bordage House, Le Bordage, St Peter Port, Guernsey, GY1 1BU.

2 Material accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements of the Company.

2 a) Basis of preparation

The financial statements have been prepared under the historical cost convention as modified by the revaluation to fair value through profit or loss of derivative financial instruments, over-the-counter ("OTC") options, securities, term deposits with banks and financial liabilities and in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

2 b) Going concern

The Company's financial position, its cash flows and liquidity position are set out in the financial statements. In addition, note 11 to the financial statements includes the Company's risk management and policies, details of its financial instruments, its exposures to credit risk and liquidity risk and its objectives, policies and processes for managing its capital.

Management have therefore used a range of scenarios that may occur up until 30 June 2026 based upon events occurring during 2024 and to date, including a reasonable worst-case scenario, to assess whether the entity can continue as a going concern. These include, but are not limited to, the following:

- Continued volatility and/or reduced liquidity in financial markets;
- The Company's existing reserves and future liquidity requirements;
- · The inability to retain and/or replace key staff;
- The appropriateness of the carrying value of the Company's assets;
- The appropriateness of the expected credit loss rate on trade receivables;

Based on the results of the scenario analysis described above, the designation of the parent entity by the Swiss National Bank as a domestic systemically important bank, and the keepwell agreement in place between the parent entity and the Company, the Directors are satisfied that it is appropriate to prepare the financial statements on a going concern basis.

As at 31 December 2024 the company held CHF 1,006 (2023: CHF 544,225) of securities issued directly by or through subsidiaries of Russian companies. These securities are held as hedging instruments for structured product liabilities whose fair value is linked to the performance of these securities, therefore the overall net financial effect on the company to date has been minimal.

2 c) Financial instruments

2 c) (i) Classification

In accordance with IFRS 9, the Company classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below. In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- · It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
- On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking; or
- It is a derivative (except for a derivative that is a designated and effective hedging instrument).

For the year ended 31 December 2024

2 Material accounting policies (continued)

2 c) (i) (1) Financial assets

The Company classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The Company's business model for managing the financial assets; and
- The contractual cash flow characteristics of the financial asset.

Financial assets measured at amortised cost

A financial instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company includes in this category term deposits in banks with original maturities of more than three months or less, short-term non-financing receivables including accrued interest receivable and prepayments.

Financial assets measured at fair value through profit or loss ("FVTPL")

A financial asset is measured at FVTPL if:

- Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest ("SPPI") on the principal amount outstanding; or
- It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- At initial recognition, it is irrevocably designated as measured at FVTPL when doing so eliminates or significantly
 reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or
 liabilities or recognising the gains and losses on them on different bases.

The Company includes in this category:

- Debt instruments: these include investments that are held under a business model to manage them on a fair value basis for investment income and fair value gains; and
- Equity instruments: these include investments in listed equities;
- · Exchange traded funds: these include investments that are held as direct hedging instruments; and
- Instruments held for trading: this includes equity instruments and debt instruments which are acquired principally for the purpose of generating a profit from short-term fluctuations in price. This category also includes derivative contracts in an asset position.

2 c) (i) (2) Financial liabilities

Financial liabilities measured at FVTPL

A financial liability is measured at FVTPL if it meets the definition of held for trading.

The Company includes in this category derivative contracts in a liability position and equity and debt instruments sold short since they are classified as held for trading.

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss. The Company includes in this category bank overdrafts and other short-term payables.

After initial measurement, the Company measures financial instruments which are classified as at FVTPL at fair value. Subsequent changes in the fair value of those financial instruments are recorded in net gain or loss on financial assets and liabilities at FVTPL in the statement of comprehensive income as part of net trading income (see note 6). Interest and dividends earned or paid on these instruments are recorded in the statement of comprehensive income as part of net trading income (see note 6).

Debt instruments, other than those classified as at FVTPL, are measured at amortised cost using the effective interest method less any allowance for impairment. Gains and losses are recognised in profit or loss when the debt instruments are derecognised or impaired, as well as through the amortisation process.

For the year ended 31 December 2024

2 Material accounting policies (continued)

2 c) (ii) Measurement (continued)

Financial liabilities, other than those classified as at FVTPL, are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, as well as through the amortisation process.

2 d) Fair value measurement

The Company measures its investments in financial instruments, such as equity instruments, debt instruments, other interest bearing investments and derivatives, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or, in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The fair value for financial instruments traded in active markets at the reporting date is based on their quoted price (bid price for long positions and ask price for short positions), without any deduction for transaction costs.

For all other financial instruments not traded in an active market, the fair value is determined using valuation techniques deemed to be appropriate in the circumstances. Valuation techniques include the market approach (i.e., using recent arm's length market transactions, adjusted as necessary, and reference to the current market value of another instrument that is substantially the same) and the income approach (i.e., discounted cash flow analysis and option pricing models making as much use of available and supportable market data as possible).

For assets and liabilities that are measured at fair value on a recurring basis, the Company identifies transfers between levels in the hierarchy by re-assessing the categorisation (based on the lowest level input that is significant to the fair value measurement as a whole), and deems transfers to have occurred at the beginning of each reporting period.

3 Changes in accounting policies and disclosures

The Company applied for the first time certain standards and amendments which are effective for annual periods beginning on or after 1 January 2024. The nature and the impact of each new standard and amendment is described below:

3 a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants (Amendments to IAS 1)

The amendments affect only the presentation of liabilities in the statement of position, not the amount or timing of recognition of any asset, liability, income or expense, or the information that entities disclose about those items. They clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the "right" to defer settlement by at least twelve months and make explicit that only rights in place "at the end of the reporting period" should affect the classification of a liability. Furthermore, they also clarify that classification is unaffected by expectations about whether an entity will exercise its right to defer settlement of a liability and make clear that settlement refers to the transfer to the counterparty of cash, equity instruments, other assets or services.

These amendments had no impact on the financial statements of the Company.

For the year ended 31 December 2024

3 Changes in accounting policies and disclosures (continued)

3 b) IFRS S1 General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 Climate-related Disclosures

The objectives of IFRS S1 and IFRS S2 are to require an entity to disclose information about its sustainability and climate-related risks and opportunities that is useful to users of general purpose financial reports in making decisions relating to providing resources to the entity. They require an entity to disclose information about all related matters that could reasonably be expected to affect the entity's cash flows, its access to finance or cost of capital over the short, medium or long term.

The Directors are not aware of any sustainability or climate related risks that would directly affect its cash flows, access to finance or cost of capital. The parent company produces a sustainability report on behalf of the Group as a whole.

4 Accounting standards, interpretations and amendments issued by not yet effective

At the date of authorisation of these financial statements, the following relevant standards and interpretations, which have not been applied, were in issue but not yet effective:

4 a) IFRS 18 Presentation and Disclosure in Financial Statements (Replaces IAS 24)

IFRS 18 introduces new categories and subtotals in the statement of profit or loss. It also requires disclosure of management-defined performance measures and includes new requirements for the location, aggregation and disaggregation of financial information. For the purposes of classifying its income and expenses into the categories required by IFRS 18, an entity will need to assess whether it has a 'main business activity' of investing in assets or providing financing to customers, as specific classification requirements will apply to such entities.

IFRS 18 is effective for annual reporting periods beginning on or after 1 January 2027 with earlier adoption permitted. The Company has opted not to early adopt IFRS 18. While the new standard may require additional disclosures it is not expected to have a material impact on the financial statements of the Company.

4 b) IFRS 19 Subsidiaries without Public Accountability: Disclosures

IFRS 19 allows eligible entities to elect to apply reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other IFRS accounting standards. Unless otherwise specified, eligible entities that elect to apply IFRS 19 will not need to apply the disclosure requirements in other IFRS accounting standards.

IFRS 19 is effective for annual reporting periods beginning on or after 1 January 2027 with earlier adoption permitted. Although the Company meets some of the eligibility criteria, the parent Company does not report under IFRS, therefore the Company cannot adopt IFRS 19.

5 Taxation

The Company is taxed at the Company standard rate (0%) in Guernsey.

Guernsey has approved legislation to implement the OECD's Pillar Two rules, which is effective for fiscal periods starting on or after 1 January 2025. The Company is in scope of this legislation, and as such will be subject to a 15% effective tax rate at a jurisdictional level from this date.

The Company has applied the exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes.

The Company will accrue tax payable at this level throughout 2025 pending further guidance notes from the States of Guernsey. For the year ended 31 December 2024, the Company would have accrued CHF 941,000.

9 Derivative contracts

Derivative contracts serve as components of the structured product financial liabilities of the Company. The derivative contracts that the Company may hold or issue include: futures; options; forward currency contracts; currency swaps; interest rate caps and floors; interest rate swaps; total return swaps; and credit default swaps.

The Company uses derivative financial instruments to economically hedge its risks associated with fluctuations in the value of structured product financial liabilities and interest rate risk associated with the Guernsey Risk Manager portfolio (the Company does not designate any derivative as a hedging instrument for hedge accounting purposes).

Derivatives often reflect, at their inception, only a mutual exchange of promises with little or no transfer of tangible consideration. However, these instruments frequently involve a high degree of leverage and are very volatile. A relatively small movement in the underlying of a derivative contract may have a significant impact on the value of the contract.

OTC derivatives may expose the Company to the risks associated with absence of an exchange market on which to close out an open position. The counterparty for all derivative contracts in force at the year-end was the Company's parent entity, Zürcher Kantonalbank, and as such no credit valuation adjustments or debit valuation adjustments have been made to the OTC derivatives in the current or previous year. As at the date of signing these financial statements, Standard & Poor's had assigned Zürcher Kantonalbank a credit rating of AAA.

The following table shows the fair value of derivative financial instruments, recorded as assets or liabilities, together with their notional amounts. The notional amount, recorded gross, is the amount of a derivative's underlying asset, reference rate or index and is the basis upon which changes in the value of the derivative are measured. The notional amounts indicate the volume of transactions outstanding at the reporting dates and are not indicative of either market risk or credit risk.

10 Fair value of financial instruments

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- · Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The following tables show the recurring hierarchy for financial assets and liabilities recognised at fair value:

For all other financial assets and liabilities, the carrying value is an approximation of fair value, including: trade and other receivables; cash and cash equivalents; and trade and other payables.

There were no changes to valuation techniques or transfers between Levels 1, 2 and 3 during the year.

Where there are quoted prices in an active market for identical assets or liabilities, a security is included in Level 1. Where values are based on inputs other than quoted prices included within Level 1, such as quoted prices for similar assets or liabilities in active markets, or quoted prices for identical assets or liabilities in markets that are not active, they are included in Level 2.

The fair values of options are calculated using an option pricing model based on direct market data, e.g., bond or share prices, and indirect market data, e.g., interest, implied volatility and dividend estimates. The fair value of such options is included within Level 2.

The fair values of other derivatives are calculated based on quotes from counterparties to the agreements which are corroborated by market data. The fair value of such interest rate swaps is included within Level 2.

The fair values of structured product financial instruments, which are set up as combinations of the components of the respective structured product, are calculated based on the sum of the valuations of its components. As the fair values of the components of the structured products are either Level 1 (securities held for trading) or Level 2 (term deposits with banks and derivative financial instruments), the fair value of such structured products is included within Level 2.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies

11 a) Introduction

The main risks that the Company is exposed to are credit risk, liquidity risk and market risk (which includes interest rate risk, currency risk and price risk). The Directors regularly review and agree policies for managing each of these risks as summarised below, which includes the use of derivatives and other financial instruments. The risk management guidelines for the Company set out guidelines for identifying, managing and monitoring the risks to which the Company is exposed and in particular:

- · define the rules and procedures for managing credit, liquidity and market risks;
- set out the applicable long-term risk policies of the Company and Zürcher Kantonalbank;
- · define the entity to which duties and responsibilities in relation to risk monitoring are assigned; and
- provide an overview of relevant powers and responsibilities.

The general guidelines are:

- credit, liquidity and market risks shall be managed in accordance with the rules and policies laid down in the guidelines on risk management for Zürcher Kantonalbank, and its subsidiaries (collectively, the "group") risk policies;
- subject to the constraints of the applicable group risk policies, the Company shall define appropriate limits with a view to mitigating default and market risks;
- Zürcher Kantonalbank shall be responsible for managing risks subject to approved limits;
- Zürcher Kantonalbank shall be responsible for quantifying risk, preparing reports on risk monitoring conducted, and reporting on risks; and
- the Directors of the Company shall be entitled to limit the level of risk exposure and the list of approved products at any time.

There were no changes to the Company's risk management guidelines during the reporting period.

11 b) Risk management structure

The Chief Executive Officer of the Company is responsible for monitoring both the liquidity and solvency of the Company and compliance with the Company's risk limits. Furthermore, the Chief Executive Officer is also responsible for documenting risks limits, defining actions to be taken in the event of a breach of any of those limits, informing the Directors of any limit breaches and subsequent actions taken.

The Directors supervise management and are ultimately responsible for the overall risk management of the Company.

11 c) Risk measurement and reporting system

Risk measurement, preparation of risk monitoring reports and risk reporting have been delegated to Zürcher Kantonalbank. To ensure a constant monitoring of risk by the Company's management, a risk report is prepared by Zürcher Kantonalbank on a daily basis and is sent to the management of the Company.

The Directors of the Company have defined the following sensitivity limits for credit risk, interest rate risk and currency risk, as well as counterparty exposure limits, which are calculated on a daily or weekly basis by Zürcher Kantonalbank.

11 c) (i) Credit spread risk sensitivity limits

Credit spread risk refers to debt instruments and is related to daily changes in the spread of an instrument's yield curve over the zero-coupon Treasury yield curve (the z-spread). The sensitivity limit defines the maximum profit and loss daily change limit permitted on the theoretical hedging costs on the Company's treasury management portfolio. The Directors have defined a maximum credit spread sensitivity ("DV01") per issuer with a view to mitigating the credit risk associated with debt instruments.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies (continued)

11 c) (i) Credit spread risk sensitivity limits (continued)

DV01 is calculated as the sensitivity of a contract to a 1 basis point fluctuation in the credit spread curve and is set at a level that the Directors believe allows for sufficient returns to be generated on the Company's securities held for trading without exposing it to excessive credit risk.

31 Decemb	31 December 2024		ber 2023
	Maximum		Maximum
Current	credit	Current	credit
	spread		spread
CHF'000	CHF'000	CHF'000	CHF'000
11	< 35	14	< 35

11 c) (ii) Counterparty exposure limits

Counterparty exposure refers to the debt instruments within securities held for trading and relates to the risk of issuer default. The Directors have defined minimum credit ratings and maximum permitted nominal holdings per issuer for each credit rating category with a view to mitigating the default risk associated with securities.

Counterparty exposure is calculated on an aggregate basis for all securities held for trading within the treasury management portfolio, and is based on the lower of the two ratings provided by Standard & Poor's and Moody's ratings agencies.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies (continued)

Long term rating BB+ and lower	-	-	n/a	-

A passive limit breach was reported on 19 December 2024 as the bond issuer had been downgraded from A to A-. The Risk Limitation Policy requires the position to be reduced to conformity within 3 months or a request for an Exception to Policy to be made within one week. The position was reduced to zero on 4 February 2025.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies (continued)

11 c) (iii) Interest rate sensitivity limits

Interest rate sensitivity is measured by reference to Rho, which is the rate at which the price of a derivative changes relative to a change in the risk free rate of interest. It is expressed as the amount of money, per share of the underlying, that the value of the option will gain or lose as the risk free interest rate rises or falls by one basis point.

	31 December 2024		31 December 2023	
	Limit	Sensitivity	Limit	Sensitivity
	CHF'000	CHF'000	CHF'000	CHF'000
Effect of 1 basis point movement in risk free interest rate	+/- 100	+/- 1	+/- 100	+/- 0

11 c) (iv) Foreign currency limits

The foreign exchange sensitivity limit is the maximum permitted movement in profit or loss caused by a 1% movement in the value of the Swiss franc.

	31 December 2024		31 December 2023	
	Limit CHF'000	Sensitivity CHF'000	Limit CHF'000	Sensitivity CHF'000
Effect of 1% movement in the value of the Swiss franc	+/- 1,000	+/- 6	+/- 1,000	+/- 4

11 d) Risk mitigation

The Company uses derivatives and other financial instruments for trading purposes to manage exposures resulting from changes in credit risks, interest and foreign currency rates.

11 e) Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Company by failing to discharge an obligation. The Company is exposed to the risk of credit-related loss that can occur as a result of a counterparty or issuer being unable or unwilling to honour its contractual obligations. These credit exposures exist within debt instruments, derivative assets, short term receivables and cash and cash equivalents.

Credit risk disclosures are segmented into two sections based on whether the underlying financial instrument is subject to IFRS 9's impairment disclosures or not.

11 e) (i) Financial assets subject to IFRS 9's impairment requirements

The Company's only financial assets subject to the Expected Credit Loss ("ECL") model within IFRS 9 are short term trade and other receivables. At 31 December 2024, the total of short-term trade and receivables was CHF nil, on which no loss allowance has been provided (31 December 2023: total of CHF nil, on which no loss had been incurred). There is not considered to be any concentration of credit risk within these assets. No assets are considered impaired and no amounts have been written off in the period.

As all trade and other receivables are impacted by IFRS 9 ECL model the Company has adopted the simplified approach. The loss allowance shown is therefore based on lifetime ECLs.

In calculating the loss allowance, a provision matrix has been used based on historical observed loss rates over the expected life of the receivables adjusted for forward-looking estimates. Items have been grouped by their nature into the following categories: accrued income; amounts due from counterparties; and other receivables.

11 e) (ii) Financial assets not subject to IFRS 9's impairment requirements

The Company is exposed to credit risk on debt instruments and derivative assets. These classes of financial assets are not subject to IFRS 9's impairment requirements as they are measured at FVTPL. The carrying value of these assets represent the Company's maximum exposure to credit risk on financial instruments not subject to the IFRS 9 impairment requirements on the respective reporting dates. Hence, no separate maximum exposure to credit risk disclosure is provided for these instruments.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies (continued)

11 e) (ii) Financial assets not subject to IFRS 9's impairment requirements (continued)

The following table analyses the sensitivity of the Company's treasury management portfolio to changes in credit spreads:

11 f) Liquidity risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity arises because of the possibility that the Company could be required to pay its liabilities earlier than expected. The Company is exposed to cash repayments of its structured product financial liabilities on a regular basis.

As detailed in note 19, the Company has entered into a keep-well agreement with Zürcher Kantonalbank (the "Parent") whereby should the Company be unable to meet any payment obligation relating to structured product financial liabilities then the Parent will make available sufficient funds to allow the Company to fulfil any payment obligations as they fall due.

There is no direct matching of the maturity profiles of the structured products with the securities held, however the Company's liquidity profile is constantly monitored as an important part of the treasury management process. Liquidity risk management consists of short term (3 months) and long term (3 years) monitoring of cash flows.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies (continued)

11 f) Liquidity risk (continued)

The following tables show a net liquidity surplus for the next year, when the treasury management portfolio is classified according to final maturity dates. The securities held in the treasury management portfolio are primarily debt instruments which, under normal market conditions are readily convertible to cash. As such their final maturity dates are not intended to closely match the final maturity profile of financial liabilities held at FVTPL:

11 g) Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, foreign exchange rates and equity prices. The maximum risk resulting from financial instruments, except for written equity-linked derivatives, equals their fair value. With written equity-linked derivatives, the Company bears the market risk of an unfavourable change in the price of the security underlying the option.

11 g) (i) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments. The Company writes interest rate derivatives, mainly being interest rate swaps in which the Company agrees to exchange, at specified intervals. The difference between fixed and variable interest amounts is calculated by reference to an agreed-upon notional principal amount in an effort to manage these risks. The majority of interest rate exposure arises on investment in debt securities and the interest rate profile is shown below.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies (continued)

11 g) (i) Interest rate risk (continued)

The following table analyses the Company's interest rate exposure. The Company's assets and liabilities are included at their carrying amount and are categorised by their maturity dates:

11 Financial risk and management objectives and policies (continued)

11 g) (ii) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company invests in securities and issues structured products that are denominated in currencies other than the Swiss franc. Accordingly, the value of the Company's assets and liabilities may be affected favourably or unfavourably by fluctuations in currency rates.

The Company writes derivatives, such as currency forwards, to hedge foreign currency denominated financial instruments and increases or decreases in the fair value of the Company's foreign currency denominated financial assets and liabilities are partially offset by gains and losses on the economic hedging instruments.

The following table indicates the currencies to which the Company had significant exposure as at 31 December on its monetary assets and liabilities.

Currency profile of the Company as at	Total CHF'000 31 December	Swiss Franc CHF'000 2024 :	Euro CHF'000	US Dollar CHF'000	British Pound CHF'000	Other CHF'000

11 g) (iii) Price risk

Equity price risk is the risk of unfavourable changes in the fair value of equity instruments or equity-linked derivatives as a result of changes in the levels of equity indices and the value of individual shares. The Company manages equity risk on its exposure to equity-linked structured products by writing equity-linked derivatives as a hedge against the movement in their price. The Company is therefore only exposed to equity price risk on the revaluation of equities purchased to meet obligations under equity-settled structured product liabilities which are valued based on the equity purchase price and are therefore subsequently settled at nil gain/loss.

Management's best estimate of the effect on profit or loss for a year due to a reasonably possible change in equity indices, with all other variables held constant, is indicated in the table below. There is no effect on other comprehensive income as the Company has no assets classified as fair value through other comprehensive income or designated hedging instruments. In practice the actual trading results may differ from the sensitivity analysis below and the difference could be material. An equivalent decrease in equity indices as shown below would have resulted in an equivalent, but opposite, impact.

For the year ended 31 December 2024

11 Financial risk and management objectives and policies (continued)

11 g) (iii) Price risk (continued)

		Effect on net in	come for the
	Change in	year ended 31 Decem	
	equity index	2024	2023
	%	CHF'000	CHF'000
Swiss All-Share Index	+/- 10	+/- 40	_

Stoxx Europe 600 Index	+/- 10	-	+/- 77

The effect of changes in bond prices resulting from variations in interest rates are quantified in notes 12 c) (iii) and 12 g) (i).

12 Leases

The Company has a 6-year lease contract in respect of office premises used in its operations. The Company is restricted under the terms of this lease from assigning and subleasing the premises with the prior consent of the lessor. Set out below of the carrying amount of right-to-use assets recognised and the movements during the year:

	Office Premises CHF'000	Total CHF'000
As at 1 January 2023	189	189
Fair value adjustment	(15)	(15)
Depreciation expense	(53)	(53)
As at 31 December 2023	121	121
Fair value adjustment	(4)	(4)
Depreciation expense	(53)	(53)
As at 31 December 2024	64	64

Set out below are the carrying amount of lease liabilities (included under interest-bearing loans and borrowings) and the movements during the year:

	Year ended	Year ended
	31 December	31 December
	2024	2023
	CHF'000	CHF'000
As at 1 January	100	179
Fair value adjustment	(4)) (15)
Accretion of interest	2	3
Payments	(67)) (69)
Foreign exchange differences	9	2
As at 31 December	40	100
Current (see note 14)	39	63
Non-current (see note 14)	-	37

The maturity analysis of lease liabilities are disclosed in note 15.

For the year ended 31 December 2024

12 Leases (continued)

The following are the amounts recognised in the statement of income:

	Year ended	Year ended
	31 December	31 December
	2024	2023
	CHF'000	CHF'000
Depreciation expense of right-of-use assets	53	53
Interest expense on lease liabilities	2	3
Loss on revaluation of lease liabilities	9	2
Total amount recognised in statement of income	64	58

The Company had total cash outflows for leases of CHF 67,059 in 2024 (CHF 68,874 in 2023).

13 Cash, amounts due from / to banks, money at call

	31 December	31 December
	2024	2023
	CHF'000	CHF'000
Due from banks, Guernsey	11	98
Due from banks, Zürcher Kantonalbank	51,604	74,581
	51,615	74,679
Due to banks, Zürcher Kantonalbank	(27,932)	(23,494)
	(27,932)	(23,494)
Total net cash, amounts due from / to banks, money at call	23,683	51,185

The amounts due from banks in Guernsey accrue interest income at variable market rates. The amounts due from Zürcher Kantonalbank do not accrue interest.

With effect from 1 November 2023, the Company entered into a loan agreement with respect to the amounts due to Zürcher Kantonalbank. From this date the amounts due accrue interest at the below interest rates and are repayable within 3 months of termination of the loan agreement. Prior to this date all amounts due to Zürcher Kantonalbank did not accrue interest and were repayable on demand.

	CHF	USD	EUR	GBP	Other
Amounts due up to CHF 50,000,000 (or currency equivalent) per account, subject to a maximum aggregate balance of CHF 75,000,000 (or currency equivalent)	Swiss National Bank Policy Council Rate	Federal Funds Target Rate · Up	European Central Bank Main Refinancing Operation Rate	Bank of England Official Bank Rate	No interest applied

Amounts due in excess of CHF 50,000,000 (or currency equivalent) per account or in excess of an aggregate balance of CHF 75,000,000 (or currency equivalent) accrue interest at the rates shown above plus 2% and are repayable immediately.

For the year ended 31 December 2024

	Interest rate %	3 [,] Maturity	December 2024 CHF'000	31 December 2023 CHF'000
Current interest-bearing loans and borrowings Lease liabilities (see note 12)	2.0	2025	39	63
Total current interest-bearing loans and borrowings		-	39	63
Non-current interest-bearing loans and borrowings Lease liabilities (see note 12)	2.0	2026	-	37
Total non-current interest-bearing loans and borrowings		_	-	37
Total interest-bearing loans and borrowings		- -	39	100

15 Changes in liabilities arising from financing activities

Liabilities	1 January 2024 CHF'000	New leases CHF'000	Cash flows CHF'000	Forei Other CHF'000	gn exchange 3 differences CHF'000	1 December 2024 CHF'000
Current lease liabilities (see note 12)	63	-	(67)	38	5	39
Non-current lease liabilities (see note 12)	37	-	-	(41)	4	-
Total Liabilities	100	<u> </u>	(67)	(3)	9	39
	1 January 2023	New leases	Cash	Other	gn exchange 3	2023
Liabilities	CHF'000	CHF'000	CHF'000	CHF'000	CHF'000	CHF'000
Current lease liabilities (see note 12)	68	-	(69)	63	1	63
Non-current lease liabilities (see note 12)	111	-	-	(75)	1	37
Total Liabilities	179	<u> </u>	(69)	(12)	2	100

The 'other' column includes the effect of reclassification of non-current portion of interest-bearing lease liabilities due to the passage of time, the effect of accrued but not yet paid interest on lease liabilities and any fair value adjustments resulting from changes in contractual lease payments. The Company classifies interest paid as cashflows from operating activities.

For the year ended 31 December 2024

	1	6	Share	capita	ı
--	---	---	-------	--------	---

	31 December 3	1 December
	2024	2023
	CHF'000	CHF'000
Authorised		
1,000 Ordinary shares of CHF1,000 each	1,000	1,000
Alletted celled on end followed		
Allotted, called up and fully paid	4.000	4 000
1,000 Ordinary shares of CHF1,000 each	1,000	1,000

Each holder of a fully paid ordinary share is entitled to one vote for each share owned. When and as dividends are declared upon the ordinary share capital of the Company, the holders of ordinary shares are entitled to share equally, share for share, in such dividends. In the event of liquidation of the Company, the holders of ordinary shares shall be entitled to receive any of the remaining assets of the Company after the distribution of all preferred amounts. The amount distributed will be in proportion to the number of equity shares held by the shareholders.

17 Capital management

The Company considers its capital to comprise its share capital and retained earnings which amounted CHF 134,224,317 as at 31 December 2024 (2023: CHF 127,948,145). The Company's capital management objectives are to achieve consistent returns while safeguarding capital and to maintain sufficient liquidity to meet the expenses of the Company and to meet its liabilities as they arise.

To achieve the above objectives, the Company invests in term deposits with group approved banks and bonds with an appropriate credit rating (see note 12).

The Company is not subject to externally imposed capital requirements and has no restrictions on the issue or repurchase of ordinary shares.

18 Related party disclosures

Parent and ultimate controlling party

The immediate and ultimate parent undertaking is Zürcher Kantonalbank, a company incorporated in Switzerland.

Transactions with related parties

The following table provides the total amount of transactions that have been entered into with related parties for the relevant financial year:

		Income	Expenses	Due to	Due from
		Year ended	Year ended	related party	related party
		31 December 3	31 December	31 December	31 December

Zürcher Kantonalbank	2024	1,726	27,932	51,604
	2023	11	23.494	74.581

Terms and conditions of transactions with related parties

Details of the terms and conditions of cash at bank due to the Parent are shown in note 14. All other balances at the year end are unsecured, interest free and settlement occurs in cash. The Company has entered into a keep-well agreement with the Parent whereby should the Company be unable to meet any payment obligation to third parties relating to structured products and other liabilities issued under any law other than German law then the Parent will make available to the Company sufficient funds to fulfil any payment obligation relating to those liabilities as they fall due. There are no guarantees provided or received for any related party receivables or payables.

Transactions with key management personnel

Key management personnel, defined as the Board of Directors and Chief Executive Officer, received the following compensation during the year:

	Year ended 31 December	Year ended 31 December
	2024 CHF'000	2023 CHF'000
Short-term employee benefits	223	209

19 Events after the statement of financial position date

There were no events after the reporting period that affect the amounts reported or require disclosure.
